No. 61

An Act To Create The South Carolina Water Resources Planning And Coordinating Committee, And To Provide For Its Duties And Responsibilities.

Whereas, the General Assembly realizes that one of the State's most valuable resources is its water; and

Whereas, we are blessed with an abundant rainfall and an extensive system of rivers and streams; and

Whereas, the General Assembly further fully realizes that with ever increasing demands being made for more and more clean, fresh, pure water, that means must be found for making the maximum beneficial use of this natural resource in order that all segments of our rapidly growing society may be amply supplied; and

Whereas, the General Assembly is concerned over the realization that the State has no well established plan which will provide equitable distribution and use of our water, and for long range development of water resources to their fullest potential; and

Whereas, the General Assembly believes that a committee should be created and charged with the responsibility of over-all State water resources planning and policymaking with consideration of water requirements and problems of all water interests, with provision for representation on interstate water agencies to which the State may be a party; and

Whereas, the planning and policymaking further should encompass long range plans for water quality management and all conceivable beneficial uses to which the waters of the State may be put in the foreseeable future, with a provision for reports and recommendations to the Governor and the General Assembly from time to time as the situation might require. Now, therefore,

Be it enacted by the General Assembly of the State of South Carolina :

SECTION 1. Citation of act.—This act may be cited as the South Carolina Water Resources Planning and Coordination Act.

SECTION 2. Findings of General Assembly.—(a) The General Assembly recognizes that: (1) the maintenance of the present level of economic and general welfare of the people of South Carolina and the future growth and development of the State for the increased economic and general welfare of the people thereof are in large part dependent upon a proper utilization and control of the water resources, and such use and control is therefore a matter of the greatest concern and highest priority; (2) the proper utilization and control of the water resources of the State can be best achieved through a coordinated, integrated state water resources policy, through plans and programs for the development of such water resources and through other activities designed to encourage, promote and secure the maximum beneficial use and control of such water resources, all coordinated by a committee; and (3) the economic and general welfare of the people is impaired by the exercise of uncoordinated single-purpose power or influence over the water resources or portions thereof by diverse public agencies and diverse statutory declarations of water resource policies resulting in friction and duplication of activity among public agencies and confusion as to what is primary and what secondary beneficial use or control of such water resources and in a consequent failure to utilize and control such water resources for multiple purposes for the maximum beneficial use and control.

(b) The General Assembly, therefore, finds that it is in the interest of the public welfare that a coordinated, integrated state water resources policy be formulated and means provided for its enforcement, that plans and programs for the development and enlargement of the water resources of the State be devised and promoted and that other activities designed to encourage, promote and secure the maximum beneficial use and control of such water resources be coordinated by a committee which, in carrying out its functions, shall give proper and adequate consideration to the multiple aspects of the beneficial use and control of such water resources with an impartiality of interest except that which is designed to best protect and promote the public welfare generally.

SECTION 3. South Carolina Water Resources Committee created—members—terms—meetings—compensation.—(a) There is hereby created the South Carolina Water Resources Committee, hereinafter referred to as the committee, which shall be composed of eighteen members as follows: ten shall be appointed by the Gov-

ernor and eight shall serve as ex officio members. The ten members appointed by the Governor shall be composed of three members representing the interest of agriculture, three members representing the interest of industry, three members representing the interest of municipalities, and one member representing salt water interests. The terms of the members appointed by the Governor shall be for three years, except that for those first appointed, representing the interest of agriculture, industry and municipalities, one of these from each category shall be appointed for one year, one from each category shall be appointed for two years, and one from each category shall be appointed for three years. The member representing salt water interests shall be appointed for three years. The length of the terms of the three members from the categories of agriculture, industry and municipalities shall be determined by lot at the first meeting of the committee after appointment. The heads of the following eight departments of the State Government shall constitute the eight ex officio members of the committee. *Provided*, however, that the head of each department concerned may at his discretion designate another member of his department to serve on the committee in his stead. The length of the terms of the members serving ex officio shall be coterminous with the terms for which the head of each department concerned is elected or appointed.

The General Assembly further finds that the question exists as to the validity of the actions taken pursuant to Act 1022 of 1964, as amended, by reason of the fact that in the election prescribed therefor the qualifications for voting vary from the qualifications prescribed for voting under the Constitution of South Carolina. Notwithstanding, it finds that a need exists for water service in the area purportedly created into the Wedgefield-Stateburg Rural Community Water District of Sumter County and, accordingly, has determined to confirm such action and recreate the district.

Indebtedness Of Such County Or A Pecuniary Liability Of Any Kind; To Provide The Purposes For Which The Proceeds From The Sale Of Such Bonds May Be Used; And To Provide For Borrowing In Anticipation Of The Issuance Of Such Bonds And For The Refunding Of Bonds Issued Hereunder.

Be it enacted by the General Assembly of the State of South Carolina :

SECTION 1. Findings of General Assembly.—As an incident to the enactment of this act the General Assembly has made the following findings:

(1) While formerly, almost entirely dependent upon agriculture and related enterprises, a large number of the inhabitants of South Carolina now obtain employment in manufacturing and related industries. But the continued improvement in technological procedures in such industries results in a constantly declining ratio between capital outlay and the number of employees, making it imperative that new industries be encouraged to locate in South Carolina and those now located herein to expand their investments.

(2) For many years South Carolina has promoted industrial expansion and for that purpose created the State Development Board whose activities have done much to promote the industrial development of the State and the welfare of its inhabitants. It is believed that the authorizations of this act will properly complement the activities of the State Development Board and will better enable it to fulfill its functions.

(3) In many states statutes exist which authorize public agencies of such states to render assistance to industries in financing new enterprises or expanding existing enterprises, but no statute has heretofore been enacted which would permit any public agency in South Carolina to render comparable assistance.

(4) It is the purpose of this act to empower the governing bodies of the several counties of the State, under the terms and conditions of this act, to provide such assistance and to that end to acquire, own, lease and dispose of properties, through which the industrial development of the State will be promoted and trade developed by inducing manufacturing, and commercial enterprises to locate in and remain in the State, and thus utilize and employ the manpower, agricultural products and natural resources of the State.

It is intended that by this act such governing bodies functioning under the guidance of the State Budget and Control Board shall be

vested with all powers necessary to enable them to accomplish these purposes, which powers shall be in all respects exercised for the benefit of the inhabitants of the State, for the increase of its commerce and for the promotion of its welfare and prosperity. It is not intended that any governing body shall itself be authorized to operate any such manufacturing or commercial enterprise except as lessor and in the manner herein prescribed.

(5) It is specifically found and declared that all action taken by any county in carrying out the purposes of this act will perform essential governmental functions.

SECTION 2. Definitions.—Whenever used in this act, unless a different meaning clearly appears from the context, the following terms, whether used in the singular or plural, shall be given the following meanings:

(1) “BONDS” shall include notes, bonds, refunding bonds, and other obligations authorized to be issued by this act.

(2) “COUNTY BOARD” shall mean the governing bodies of the several counties of the State as now or hereafter constituted; and in the event that any project shall be located in more than one county, the term COUNTY BOARD shall relate to the governing bodies of the several counties wherein such project shall be located.

(3) “PROJECT” shall mean any land and any buildings and other improvements thereon including, without limiting the generality of the foregoing, water, sewage treatment and disposal facilities, air pollution control facilities, and all other machinery, apparatus, equipment, office facilities and furnishings which shall be deemed necessary, suitable or useful by the following or any combination thereof: (a) any enterprise for the manufacturing, processing, or assembling of any agricultural or manufactured products; (b) any commercial enterprise engaged in storing, warehousing, distributing or selling products of agriculture, mining or industry; (c) any enterprise for research in connection with any of the foregoing or for the purpose of developing new products or new processes or improving existing products or processes; and (d) any enlargement, improvement or expansion of any existing enterprise in items (a), (b), and (c) of this subsection. The term PROJECT shall not include facilities designed for the sale or distribution to the public of electricity, gas, water or telephone or other services commonly

classified as public utilities. A PROJECT may be located in one or more counties.

(4) "STATE BOARD" shall mean the State Budget and Control Board of South Carolina.

(5) "TRUST INDENTURE" shall mean any trust agreement or mortgage by which BONDS issued pursuant to this act may be secured.

SECTION 3. Powers of County Boards.—Subject to obtaining the approval from the State BOARD required by Section 14 of this act, the several counties of the State functioning through their respective COUNTY BOARDS shall have, in addition to such other powers as may be vested in such counties by laws now existing or hereafter enacted, the following powers: (1) To acquire, and, in connection with such acquisition, to enlarge, improve and expand, whether by construction, purchase, gift or lease, one or more PROJECTS which shall be located within the County, except that as to a PROJECT located in more than one county, the same may be acquired jointly by the COUNTY BOARDS of the counties wherein the said PROJECT shall be located; (2) To lease to others any or all of its PROJECTS for such rentals and upon such terms and conditions as the COUNTY BOARD may deem advisable and as shall not conflict with the provisions of this act; and (3) To issue revenue bonds for the purpose of defraying the cost of acquiring, by construction and purchase, and in connection with any such acquisition, to enlarge, improve and expand any PROJECT, and to secure the payment of such bonds, all as hereinafter provided. No COUNTY BOARD shall have the power to operate any PROJECT as a business or in any manner except as lessor thereof.

SECTION 4. Bond issues—provisions of.—All bonds issued by a COUNTY BOARD under authority of this act shall be limited obligations of its county, the principal of and interest on which shall be payable solely out of the revenues derived from the leasing of the PROJECT which the bonds are issued to finance. Bonds and interest coupons issued under authority of this act shall never constitute an indebtedness of such county within the meaning of any state constitutional provision or statutory limitation and shall never constitute nor give rise to a pecuniary liability of the county or a charge against its general credit or taxing powers, and such fact shall be plainly stated on the face of each bond. Such bonds may be executed and delivered at

any time as a single issue or from time to time as several issues, may be in such form and denominations, may be of such tenor, may be in registered or bearer form either as to principal or interest or both, may be payable in such installments and at such time or times **not** exceeding forty years from their date, may be subject to such terms of redemption, may be payable at such place or places, may bear interest at such rate or rates payable at such place or places and evidenced in such manner, and may contain such provisions not inconsistent herewith, all of which shall be provided in the proceedings of the COUNTY BOARD authorizing the BONDS. Any BONDS issued under the authority of this act may be sold at public or private sale at such price and in such manner and from time to time as may be determined by the COUNTY BOARD to be most advantageous, and the COUNTY BOARD may pay, as a part of the cost of acquiring any PROJECT, and out of the BOND proceeds, all expenses, premiums and commissions which the COUNTY BOARD may deem necessary or advantageous in connection with the authorization, sale and issuance thereof. ALL BONDS issued under the authority of this act except registered BONDS, registered otherwise than to bearer and all interest coupons appurtenant thereto shall be construed to be negotiable instruments, despite the fact that they are payable solely from a specified source. The proceedings authorizing the issuance of BONDS may provide for the issuance, in the future, of further bonds on a parity with those initially issued, but such proceedings shall preclude the issuance of bonds or any obligations of any sort secured by a lien prior to the lien of the BONDS or bonds afterwards issued on a parity with the BONDS.

Pending the issuance of BONDS, bond anticipation notes may be issued, and to the end that a vehicle be provided therefor, the provisions of Act No. 116 of the Acts and Joint Resolutions of South Carolina, 1965, as now or hereafter amended, shall be applicable to such bond anticipatory borrowing.

SECTION 5. Pledge of revenues—liability of counties—default proceedings.—The principal of and interest on any BONDS issued under the authority of this act shall be secured by a pledge of the revenues from which such BONDS shall be payable, may be secured by a TRUST INDENTURE covering all or any part of the PROJECT from which the revenues so pledged are derived, and may be additionally secured by a pledge of the lease of such PROJECT. The proceedings under which such BONDS are authorized to be

issued or any such TRUST INDENTURE may contain any agreements and provisions customarily contained in instruments securing bonds, including, without limiting the generality of the foregoing, provisions respecting the fixing and collection of rents for any PROJECT covered by such proceedings or TRUST INDENTURE, the terms to be incorporated in the lease of the PROJECT, the maintenance and insurance of the PROJECT, the creation and maintenance of special funds from the revenues from the PROJECT, and the rights and remedies available in the event of default to the bondholders or to the trustee under such TRUST INDENTURE, all as the COUNTY BOARD shall deem advisable and as shall not be in conflict with the provisions of this act; *provided*, however, that in making any such agreements or provisions a county shall not have the power to obligate itself except with respect to the PROJECT and the application of the revenues therefrom, and shall not have the power to incur a pecuniary liability or a charge upon its general credit or against its taxing powers. The proceedings authorizing any BONDS hereunder and any TRUST INDENTURE securing such BONDS may provide that, in the event of default in payment of the principal of or the interest on such BONDS or in the performance of any agreement contained in such proceedings or TRUST INDENTURE, such payment and performance may be enforced by mandamus or by the appointment of a receiver in equity with power to charge and collect rents and to apply the revenues from the PROJECT in accordance with such proceedings or the provisions of such TRUST INDENTURE. Any such TRUST INDENTURE may provide also that in the event of default in payment or the violation of any agreement contained in the TRUST INDENTURE, it may be foreclosed by proceedings at law or in equity, and may provide that any trustee under the TRUST INDENTURE or the holder of any of the BONDS secured thereby may become the purchaser at any foreclosure sale, if he is the highest bidder. No breach of any such agreement shall impose any pecuniary liability upon a county or any charge upon its general credit or against its taxing power.

The Trustee or Trustees under any TRUST INDENTURE, or any depository specified by such TRUST INDENTURE, may be such persons or corporations as the COUNTY BOARD shall designate, notwithstanding that they may be nonresidents of South Carolina or incorporated under the laws of the United States or the laws of other states of the United States.

SECTION 5A. Letting of contracts.—Contracts for the construction of any PROJECTS may be let on such terms and under such conditions as the COUNTY BOARD shall prescribe and may be let with or without advertisement or call for bids therefor.

SECTION 6. Determinations to be made by County Boards—lease agreements.—Prior to undertaking any PROJECT, the COUNTY BOARD shall find: That the PROJECT will subserve the purposes of this act; that the PROJECT will give rise to no pecuniary liability of the county or a charge against its general credit or taxing power; the amount of BONDS required to finance the PROJECT; the amount necessary in each year to pay the principal of and the interest on the BONDS proposed to be issued to finance the PROJECT; the amount necessary to be paid each year into any reserve funds which the COUNTY BOARD may deem it advisable to establish in connection with the retirement of the proposed BONDS and the maintenance of the PROJECT; and, unless the terms under which the PROJECT is to be leased provide that the lessee shall maintain the PROJECT and carry all proper insurance with respect thereto, the estimated cost of maintaining the PROJECT in good repair and keeping it properly insured. The determinations and findings of the COUNTY BOARD required to be made above shall be set forth in the proceedings under which the proposed BONDS are to be issued.

Every lease of a PROJECT shall contain an agreement obligating the lessee to effect the completion of the PROJECT if the proceeds of the BONDS prove insufficient, and obligating the lessee to pay a rental, which, upon the basis of the determinations theretofore made, will be sufficient (a) to pay the principal of and interest on the BONDS issued to finance the PROJECT, (b) to build up and maintain any reserves deemed by the COUNTY BOARD to be advisable in connection therewith, and (c) unless the agreement of lease obligates the lessee to pay for the maintenance and insurance of the PROJECT, to pay the costs of maintaining the PROJECT in good repair and and keeping it properly insured.

Every lease shall contain a provision requiring the lessee to make payments to the county or counties, school district or school districts, and other political units wherein the PROJECT shall be located in lieu of taxes, in such amounts as would result from taxes levied on the PROJECT by such county or counties, school district or school districts, and other political unit or units, if the PROJECT

were owned by the lessee, but with appropriate reductions similar to the tax exemptions, if any, which would be afforded to the lessee if it were the owner of the PROJECT.

SECTION 7. Leases—further.—Any lease of any PROJECT may include a provision that the lessee shall have options to renew such lease and/or to purchase any or all of the leased PROJECT on such terms, at such times, and upon such considerations as the COUNTY BOARD shall agree to. The consideration for any renewal of the lease or for the purchase of any or all of the PROJECT need not require the payment by the lessee of the full market value thereof, but may be fixed at such lesser consideration as the COUNTY BOARD shall determine to be in the interest of the county and in furtherance of the policy of this act.

SECTION 8. Construction of Project.—The COUNTY BOARD shall have the power to provide that the PROJECT and improvements shall be constructed by the county, the lessee of such PROJECT or either one or both of them on real estate owned by the county or the lessee, as the case may be, that the BOND proceeds shall be disbursed by the trustee bank or banks during construction upon the estimate, order or certificate of the lessee, and that the PROJECT if and to the extent constructed on real estate not owned by the county shall be conveyed to the county not later than its completion. The COUNTY BOARD may authorize the lessee to acquire real estate and commence construction in anticipation of the issuance of BONDS and to provide that the lessee shall be reimbursed for such expenditures from the proceeds of such BONDS if and when issued. In making such agreements or provisions the COUNTY BOARD shall not have the power to obligate the county except with respect to the PROJECT and the application of the revenues therefrom, and shall not have the power to incur a pecuniary liability or a charge upon the general credit of the county or against its taxing powers.

SECTION 9. Proceeds.—The proceeds from the sale of any BONDS issued under authority of this act shall be applied only for the purpose for which the BONDS were issued; *provided*, however, that any premium and accrued interest received in any such sale shall be applied to the payment of the principal of or the interest on the BONDS sold; and *provided*, further, that if for any reason any portion of the proceeds shall not be needed for the purpose for which the BONDS were issued, such unneeded portion of the proceeds shall

be applied to the payment of the principal of or the interest on the BONDS. The cost of acquiring any PROJECT shall be deemed to include the following: the actual cost of the construction of any part of a PROJECT which may be constructed, including architect's and engineers' fees; the purchase price of any part of a PROJECT that may be acquired by purchase; all expenses in connection with the authorization, sale and issuance of the BONDS to finance such acquisition; and the interest on the BONDS for a reasonable time prior to construction, during construction, and for not exceeding one year after completion of the construction.

SECTION 10. Use of county lands.—No county shall have the power to pay out of its general funds, or otherwise contribute, any part of the costs of acquiring a PROJECT, except that lands owned by any county not required for any other public purpose, may be utilized to the extent required for a PROJECT, but under such circumstances the reasonable value of the lands shall be deemed a part of the cost of construction, and shall be paid out of the proceeds of the BONDS to the general fund of the county. The determination by the COUNTY BOARD of the reasonable value of the land shall be conclusive but review of the determination may be instituted by any interested party within twenty days, but not afterwards, following the publication of notice of the determination in a newspaper of general circulation in each county in which the land is situated, by proceedings de novo in the Court of Common Pleas of the county. The entire cost of acquiring any PROJECT shall be paid out of the proceeds from the sale of BONDS issued under the authority of this act; *provided*, however, that this provision shall not be construed to prevent a county from accepting donations of property to be used as a part of any PROJECT or money to be used for defraying any part of the cost of any PROJECT.

SECTION 11. Refunding of bonds.—Any BONDS issued hereunder and at any time outstanding may at any time and from time to time be refunded by a county, but only with the approval of the STATE BOARD being first obtained, by the issuance of its refunding BONDS in such amount as the COUNTY BOARD may deem necessary but not exceeding an amount sufficient to refund the principal of the BONDS to be refunded, together with any unpaid interest thereon and any premiums, expenses and commissions necessary to be paid in connection therewith. Any such refunding may be effected whether the BONDS to be refunded have matured or shall thereafter

mature, either by sale of the refunding BONDS and the application of the proceeds for the payment of the BONDS to be refunded, or by exchange of the refunding BONDS for the BONDS to be refunded thereby; *provided*, that the holders of any BONDS to be refunded shall not be compelled without their consent to surrender their BONDS for payment or exchange prior to the date on which they are payable, or, if they are called for redemption, prior to the date on which they are by their terms subject to redemption. All refunding BONDS issued under the authority of this act shall be payable in the same manner and under the same terms and conditions as are herein provided for the issuance of BONDS. In addition to the powers herein granted for the issuance of refunding BONDS the COUNTY BOARDS may avail themselves of the provisions of Act No. 309 of the Acts and Joint Resolutions of South Carolina, 1965, (the Advanced Refunding Act).

SECTION 12. Investments by fiduciaries.—It shall be lawful for all executors, administrators, guardians, committees and other fiduciaries to invest any moneys in their hands in BONDS issued under the provisions of this act.

SECTION 13. Exempt from taxes.—The BONDS authorized by this act and the income therefrom, all TRUST INDENTURES executed as security therefor, all lease agreements made pursuant to the provisions hereof, and all PROJECTS so long as county owned and the revenue derived from any lease thereof shall be exempt from all taxation in the State of South Carolina except for inheritance, estate or transfer taxes; and all TRUST INDENTURES and lease agreements made pursuant to the provisions of this act shall be exempt from South Carolina stamp and transfer taxes.

SECTION 14. Bonds not to be issued without approval of State Board.—NO BONDS shall be issued pursuant to the provisions of this act until the proposal of the COUNTY BOARD to issue the BONDS shall receive the approval of the STATE BOARD. Whenever any COUNTY BOARD shall propose to issue BONDS pursuant to the provisions of this act, it shall file its petition to the STATE BOARD setting forth: (a) a brief description of the PROJECT proposed to be undertaken and its anticipated effect upon the economy of the county in which the PROJECT is to be located and of the areas adjacent thereto; (b) a reasonable estimate of the cost of the PROJECT; and (c) a general summary

of the terms and conditions of the lease and TRUST INDENTURE to be made, including a statement establishing the basis for the payment of sums in lieu of taxes as required by Section 6 of this act. Upon the filing of the petition the STATE BOARD shall, as soon as practicable, make such independent investigation as it deems advisable, and if it finds that the PROJECT is intended to promote the purposes of this act and is reasonably anticipated to effect such result, it shall be authorized to approve the PROJECT and at any time following such approval, the COUNTY BOARD may proceed with the acquisition and financing of the PROJECT. Notice of the approval of any PROJECT by the STATE BOARD shall be published at least once by the STATE BOARD in a newspaper having general circulation in the county where the PROJECT is to be located.

Any interested party may, within twenty days after the date of the publication of such notice, but not afterwards, challenge the validity of such approval by action de novo in the Court of Common Pleas in the county where the PROJECT is to be located.

SECTION 15. Powers to be additional.—Neither this act nor anything herein contained shall be construed as a restriction or limitation upon any powers which a county might otherwise have under any laws of this State, but shall be construed as cumulative. The authorizations herein granted may be carried out by any COUNTY BOARD acting at any regular or special meeting and without publication of the proceedings, notwithstanding any restriction, limitation, or other procedure, imposed upon the COUNTY BOARD by any other statute.

SECTION 16. Savings clause.—If any portion of this act shall be held to be invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect any other portion of this act which is not unconstitutional.

SECTION 17. Time effective.—This act shall take effect January 1, 1967.

Approved the 21st day of March, 1967.

shall determine and the bonds of any issue shall mature in such equal or unequal annual installments as may be determined by the commission. They shall be made payable at such place as the commission shall prescribe and shall bear interest at such rate, payable in such manner as the commission may determine. The bonds may be additionally secured by a pledge of the net revenues which the

district may derive from the operation of any revenue-producing facility. In such event, such net revenues as shall be available shall be delivered to the Treasurer of Greenville County prior to the occasion when the auditor fixes the annual levy. The annual ad valorem tax herein directed to be levied may be reduced in each year by the amount of net revenues as aforesaid actually in the hands of the Treasurer of Greenville County at the time the tax for such year is required to be levied, and the tax may be entirely suspended for any year in case such moneys on hand, applicable as aforesaid, are sufficient to pay both principal and interest then due or falling due in such year and remaining unpaid.

(f) The pledge of net revenues authorized by subparagraph (e) of this paragraph need not, in the discretion of the commission, be exclusive and the commission may reserve the right to issue further bonds, payable in whole or in part, from such net revenues, on a parity with the bonds authorized by this paragraph, under such conditions as the commission may prescribe.

(g) The proceeds derived from the sale of such bonds shall be deposited with the Treasurer of Greenville County in a separate and special fund and shall be expended upon the warrants or orders of the commission for the purposes specified herein, and no others except that any premium received shall be deposited with the Treasurer of Greenville County and by him applied to the first installment of principal becoming due on the bonds, and any accrued interest received shall be applied by the Treasurer of Greenville County to the first installment of interest becoming due on the bonds. Neither the purchasers of the bonds, nor any subsequent holders thereof, shall be responsible for the proper application of the proceeds of sale.

16. Raise funds for discharging the duties vested in it by levying a tax therefor. The commission shall notify the auditor and treasurer of any desired tax, whereupon they shall assess and collect the tax as requested and the treasurer shall hold the funds and disburse them as directed by the commission. All such taxes shall constitute a lien upon the property against which they are levied, on a parity with the lien of county taxes, and the provisions of law relating to penalties for the nonpayment or tardy payment of county taxes, and the provisions relating to sale of property for delinquent county taxes shall apply to taxes levied pursuant to this act.

SECTION 4. Disposition of revenues.—All revenues derived by the commission from the operation of any revenue-producing facility, which may not be required to discharge covenants made by it in issuing bonds, notes or other obligations authorized by this act, shall be disposed of by the commission from time to time for purposes germane to the functions of the district.

SECTION 5. Rates not to be regulated.—The rates charged for services furnished by any revenue-producing facility of the district, as constructed, improved, enlarged or extended, shall not be subject to supervision or regulation of any State bureau, board, commission or other like instrumentality or agency thereof.

SECTION 1. Certain children required to attend school.—All parents or guardians shall cause their children or wards who are in the age group of seven to sixteen years, inclusive, to regularly attend a public or private school of this State which has been approved by the State Board of Education or a member school of the South Carolina Independent Schools' Association or some similar organization, or a parochial or denominational school, or other programs which have been approved by the State Board of Education.

SECTION 2. Penalties.—Any parent or guardian who neglects to enroll his child or ward or refuses to make such child or ward attend school shall, upon conviction, be fined not more than fifty dollars or be imprisoned not more than thirty days; each day's absence shall constitute a separate offense; *provided*, the court may in its discretion suspend the sentence of anyone convicted of the provisions of this act.

SECTION 3. Exemptions.—The provisions of this act shall not apply to:

(a) Any child who has been graduated from high school or has received the equivalent of a high school education from a school approved by the State Board of Education, or member school of South Carolina Independent Schools' Association, or a private school in existence at the time of the passage of this act;

(c) Any child who has completed the eighth grade and who is determined by the court to be legally and gainfully employed whose employment is further determined by such court to be necessary for the maintenance of his home;

(d) Any child who, at the time this act becomes law, is ten years of age or older and has been out of school for three years or more,

provided there are no special classes in the school district for the child to attend;

(e) Any child who is married or has been married, any unmarried child who is pregnant or any child who has had a child outside of wedlock.

SECTION 4. Instruction at place other than school.—Instruction during the school term at a place other than a school may be substituted for school attendance; *provided*, such instruction is approved by the State Board of Education as substantially equivalent to instruction given to children of like ages in the public or private schools where such children reside.

SECTION 5. School trustees to report non-attendance to court.—If the board of trustees of a school district or its designee is unable to obtain the school attendance of a child in the age groups specified in Section 1 of this act, the board or its designee shall report such non-attendance in writing to the juvenile court or such other court in the county as may have jurisdiction of juveniles but exclusive of magistrate's courts notwithstanding the provisions of Section 43-68, Code of Laws of South Carolina, 1962; *provided*, that no one except the Board of Trustees or its designee shall have the authority to institute the proceedings herein.

such child to be a delinquent and subject to the provisions of law in such cases.

SECTION 8. Not applicable to children expelled or suspended.

—Nothing herein shall be construed as granting authority to require enrollment or attendance of a child who has been or may be expelled or suspended by the board of trustees of the district or any other person acting with authority from the board of trustees.

SECTION 9. Findings of General Assembly.—The General Assembly finds: (1) that it is to the best interest of the State of South Carolina and to its citizens that a form of compulsory school attendance be required in this State; (2) that an application of such a law will affect the several school districts in different degrees in its initial applications; (3) that problems of facilities, teacher load, student transportation and meal provisions are among the problems that will confront the respective school districts in varying degrees and (4) that it is, therefore, essential to the orderly transition to compulsory school attendance to authorize the local school boards to establish different effective dates for the implementation of compulsory school provisions. The provisions of this act shall be implemented in each school district on such date, but not later than July 1, 1974, as shall be determined by the school board of trustees of the district, taking into account the district's financial and physical plant problems. *Provided*, that if a school board shall determine it necessary to establish an effective date different from the date upon which this Act takes effect, then it shall notify the State Board of Education within 30 days of the date of implementation for its district.

SECTION 10. Rules and regulations.—The State Board of Education shall establish rules and regulations defining lawful and unlawful absences beyond those specifically named in this act and such additional regulations as are necessary for the orderly enrollment of pupils so as to provide for uniform dates of entrance.

SECTION 11. Saving Clause.—If any provision of this act shall be declared to be unconstitutional, such declaration shall not invalidate the remaining provisions of this act.

SECTION 12. Time effective.—This act shall take effect upon approval by the Governor.

Whereas, the General Assembly is aware that the Congress of the United States has enacted the Federal Highway Safety Act of 1966 which requires that the Secretary of Commerce shall approve each state's highway safety program; and

Whereas, the General Assembly takes note particularly of the provision of the Safety Act which provides that after December 31, 1968, the Secretary of Commerce shall not apportion any funds accruing under the Safety Act to any state which is not implementing a highway safety program approved by the Secretary and after January 1, 1969, the Secretary shall reduce the amount apportioned under the Federal Aid Highway Act by ten per cent of the normal amount; and

Whereas, the General Assembly further notes that the Secretary will not approve any state's highway safety program which does not, among other things, provide that the Governor shall be responsible for the administration of the state's highway safety program; and

Section 37-1302. For the purposes of this chapter

(a) the term 'insurance premium service company' means a person engaged in the business of entering into insurance premium service agreements;

(b) the term 'premium service agreement' means an agreement by which an insured or prospective insured promises to pay to a premium service company the amount advanced or to be advanced under the agreement to an insurer or to an insurance agent or insurance broker in payment of premiums on an insurance contract together with a service charge as authorized by this chapter;

(c) the term 'licensee' means a premium service company holding a license issued by the Commissioner;

(d) the term 'Commissioner' means the Chief Insurance Commissioner of South Carolina.

Section 37-1303. (a) No person shall engage in the business of servicing insurance premiums in this State without first obtaining a license from the Commissioner. Any person who shall engage in the business of servicing insurance premiums in this State without obtaining a license shall be guilty of a misdemeanor and upon conviction shall be punished by a fine not exceeding five hundred dollars. Each transaction shall constitute a separate offense.

(b) The annual license fee shall be one hundred dollars payable on or before the thirty-first day of March in each year to the Commissioner, to be deposited by him in the State Treasury.

(c) The person to whom the license is issued shall file sworn answers, subject to the penalties of perjury, to such interrogatories as the Commissioner may require. The Commissioner shall have authority to require the applicant to disclose the identity of all stockholders, partners, officers and employees, and he may refuse to issue or renew a license in the name of any firm, partnership or corporation if he is not satisfied that any officer, employee, stockholder, or partner thereof who may materially influence the applicant's conduct meets the standards of this chapter.

Section 37-1304. (a) Upon the filing of an application and the payment of the license fee the Commissioner shall make an investigation of the applicant and shall issue a license if the applicant is qualified. If the Commissioner does not so find, he shall, within thirty

days after he has received such application, at the request of the applicant, give the applicant a full hearing.

(5) if directly or indirectly owned or controlled by, or affiliated with, an insurer, will not use the license to restrain trade, or so as to secure an unfair competitive advantage, or to falsify such insurer's financial condition, or so as to render deceptive or misleading any financial statement of the insurer, or in any other way so as to aid or assist such insurer in evading any provision of the insurance laws or regulations.

Section 37-1305. (a) The Commissioner may revoke or suspend the license of any premium service company after investigation if it appears to the Commissioner that

inducement to the financing of any insurance policy with the premium service company.

(b) Before the Commissioner shall revoke, suspend or refuse to renew the license of any premium service company, he shall give to such person an opportunity to be fully heard and to introduce evidence in his behalf. In lieu of revoking or suspending the license for any of the causes enumerated in this section, after hearing as herein provided, the Commissioner may subject such company to a penalty of not more than five hundred dollars for each offense when in his judgment he finds that the public interest would not be harmed by the continued operation of such company. The amount of such penalty shall be paid to the Commissioner to be deposited by him in the State Treasury. At any hearing provided by this section, the Commissioner shall have authority to administer oaths to witnesses. Anyone testifying falsely, after having been administered such oath, shall be subject to the penalty of perjury.

The Commissioner may at any time require any licensee to bring such records as he may direct to the Commissioner's office for examination.

(b) Every licensee shall preserve its records, including cards used in a card system, for at least three years after making the final entry in respect to any premium service agreement. The preservation of records in photographic form shall constitute compliance with this requirement.

Section 37-1307. The Commissioner shall, after a public hearing, have authority to make and enforce such rules and regulations as may be necessary to carry out the provisions of this chapter, but such rules and regulations shall not be contrary to nor inconsistent with the provisions of this chapter.

(b) The items set out in clause (3) of subsection (A) need not be stated in the sequence or order in which they appear in such clause, and additional items may be included to explain the computations made in determining the amount to be paid by the insured.

Section 37-1309. (a) A premium service company shall not write any credit life or accident and sickness insurance nor other insurance, nor sell any other service or commodity in connection with any premium service contract.

(b) A premium service company shall not charge, contract for, receive, or collect a service charge other than as permitted by this chapter.

(c) The service charge shall be computed on the balance of the premiums due (after subtracting the down payment made by the insured in accordance with the premium service agreement) from the effective date of the insurance coverage, for which the premiums are being advanced, to and including the date when the final installment of the premium service agreement is payable.

(d) There shall be permitted an initial charge of ten dollars per premium service contract which shall not be refunded upon cancellation or prepayment.

(e) The service charge shall be at the rate of three quarters of one per cent per month computed on the remainder of the outstanding balance. However, in the event of cancellation by the borrower prior to maturity of the contract, the unearned service charge shall be refunded on a short rate basis as determined by the Commission.

(f) No premium service company shall induce an insured to become obligated under more than one premium service agreement for the purpose of obtaining more than one non-refundable ten-dollar charge nor shall a premium service company intentionally cancel an insurance contract for the purpose of obtaining an additional ten-dollar non-refundable charge on a new premium service agreement accepted within sixty days of the cancellation on the prior agreement.

Section 37-1310. (a) When a premium service agreement contains a power of attorney enabling the company to cancel any insurance contract listed in the agreement, the insurance contract shall not be cancelled by the premium service company unless such cancellation is effectuated in accordance with this section.

(b) Not less than ten days' written notice shall be mailed to the insured of the intent of the premium finance company to cancel the insurance contract unless the default is cured within such ten-day period.

(c) Not less than five days after the expiration of such notice, the premium service company may thereafter request in the name of the insured, cancellation of such insurance contract by mailing to the insurer a notice of cancellation, and the insurance contract shall be cancelled as if such notice of cancellation had been submitted by the insured himself, but without requiring the return of the insurance contract. The premium service company shall also mail a notice of cancellation to the insured at his last address as set forth in its records, and such mailing shall constitute sufficient proof of delivery.

(d) All statutory, regulatory, and contractual restrictions providing that the insurance contract may not be cancelled unless notice is given to a governmental agency, mortgagee, or other third party shall apply where cancellation is effected under the provisions of this section. The insurer shall give the prescribed notice in behalf of itself or the insured to any governmental agency, mortgagee, or other third party on or before the second business day after the day it receives the notice of cancellation from the premium service company and shall determine the effective date of cancellation taking into consideration the number of days notice required to complete the cancellation.

(e) Whenever an insurance contract is cancelled the insurer shall return whatever gross unearned premiums are due under the insur-

ance contract to the premium service company which financed the premium for the account of the insured.

(f) In the event that the crediting of return premiums to the account of the insured results in a surplus over the amount due from the insured, the premium service company shall hold such surplus in a fiduciary capacity and promptly refund such excess to the insured provided that no such refund shall be required if it amounts to less than one dollar.

Section 37-1311. No filing of the premium service agreement shall be necessary to perfect the validity of such agreement as a secured transaction as against creditors, subsequent purchasers, pledgees, encumbrances, successors, or assigns.

Section 37-1312. Any minor eighteen years of age or over shall be deemed competent to enter into an agreement to finance automobile insurance, and to execute a power of attorney in connection with such financing, to the same extent and with the same effect as though he had attained the age of twenty-one years.

If the person using or proposing to use the label does not accept the determination of the Director, he may request a hearing, but the use of the label shall, if the Director so directs, be withheld pending hearing and final determination by the Director. Any such determination by the Director shall be conclusive unless within thirty days after the receipt of notice of such final determination the person adversely affected thereby appeals to the court of common pleas or county court of the county in which he has his principal place of business.

SECTION 14. Rules and regulations.—The Director shall promulgate such rules and regulations and appoint such veterinarians and other qualified personnel as are necessary to carry out the purposes or provisions of this act. Such rules and regulations shall be in conformity with the rules and regulations under the Federal Meat Inspection Act and the South Carolina State Board of Health as now in effect and with subsequent amendments thereof unless they are considered by the Director as not to be in accord with the objectives of this act.

No. 223

An Act To Provide For The Control Of Atomic Energy And Radiation And To Provide Penalties For Violations.

Be it enacted by the General Assembly of the State of South Carolina :

SECTION 1. Findings of General Assembly.—The General Assembly finds that remarkable scientific developments have occurred in the fields of atomic energy and related sciences. Present emphases and plans for further developments in these fields by the Federal Government and by private industry are creating broad opportunities and also responsibilities for the states. Careful consideration must be given to these developments as they relate to or influence the welfare of South Carolina in order that technological developments achieved in these areas can be fully exploited to advance the economic and social well-being of our people. Recognition is given to the existence in South Carolina of major federal and private atomic energy installations which will inevitably produce additional satellite industries. Of necessity, the beneficial growth of atomic energy and related sciences will exert influence on the exercise of state functions. It is prudent and wise that the State provide the means, which do not now exist, for discharging proper functions of State Government with full consideration of the health and safety re-

quirements of its people. It is likewise important in nuclear energy affairs that the State maintain appropriate liaison with agencies of the Federal Government, the United States Congress, certain national foundations and associations, with other states and regional groups active in this field. Hence, it is important that the State diligently pursue those activities and programs which shall accrue to the benefit of the State. Particular consideration must be given to the promotion and treatment of atomic energy industries in a manner which will meld such industries into the balanced economy of the State. In view of the above findings, the General Assembly has determined to enact the Atomic Energy and Radiation Control Act, by which name this act shall be cited.

SECTION 2. Definitions.—For the purpose of this act, the following words shall have the meaning indicated:

1. "By-product material" means any radioactive material (except special nuclear material) yielded in or made radioactive by exposure to the radiation incident to the process of producing or utilizing special nuclear material.

2. "Ionizing radiation" means gamma rays and X-rays, alpha and beta particles, electrons, neutrons, protons, and other atomic particles; but not sound or radio waves, or visible, infrared, or ultra-violet light.

3. "General license" means a license effective pursuant to regulations promulgated under the provisions of this act without the filing of an application to transfer, acquire, own, possess or use quantities of, or devices or equipment utilizing by-product, source, special atomic energy materials, or other radioactive materials occurring naturally or produced artificially.

4. "Specific license" means a license, issued after application, to use, manufacture, produce, transfer, receive, acquire, own, or possess quantities of, or devices or equipment utilizing by-product, source, special atomic energy materials, or other radioactive materials occurring naturally or produced artificially.

5. "Atomic energy" means all forms of energy released in the course of nuclear fission or nuclear fusion or other atomic transformations.

6. "Source material" means (a) uranium, thorium, or any other material which the Governor declares by order to be source material after the United States Atomic Energy Commission, or any successor thereto, has determined the material to be such; or (b) ores

containing one or more of the foregoing materials, in such concentration as the Governor declares by order to be source material after the United States Atomic Energy Commission, or any successor thereto, has determined the material in such concentration to be source material.

7. "Special atomic energy materials" mean (a) plutonium, uranium 233, uranium enriched in the isotope 233 or in the isotope 235, and any other material which the Governor declares by order to be special nuclear materials after the United States Atomic Energy Commission, or any successor thereto, has determined the material to be such, but does not include source material; or (b) any material artificially enriched by any of the foregoing, but does not include source material.

SECTION 3. State Development Board—powers and duties.—

The State Development Board, hereinafter in this section referred to as the board, is hereby designated as the agency of the State which shall be responsible for the promotion and development of atomic energy resources in South Carolina.

In accordance with the laws of this State, the board shall employ, compensate, and direct the activities of such individuals as may be necessary to carry out the provisions of this act. The board shall have the following powers and duties in the promotion and development of atomic energy industries, and resources, in addition to its other duties as imposed by law:

1. Promote and assist in the establishment of private atomic energy facilities such as nuclear fuel manufacturing, fabrication, and reprocessing plants; radioisotope facilities; waste-disposal sites; test reactor sites; transportation facilities; and others which are necessary or desirable for the promotion and development of atomic energy resources within the State.

2. Assist the Governor, the General Assembly, and other agencies of State Government in the development and promotion of atomic energy resources and industrial activities.

3. Coordinate the atomic energy industrial development activities of the State, recognizing the regulatory authority of the State Department of Health and the duties of other departments of State Government.

4. Maintain a close liaison with the industrial community, the Federal Government, the governments of other states, and regional bodies concerned with the promotion and development of industrial activity in the field of atomic energy.

5. Cooperate with institutions of higher learning in order to take full advantage of all research activities which will support atomic energy development and industrial activities.

6. Accept and administer loans, grants, and other funds or gifts, conditional or otherwise, in the furtherance of its promotion and development functions, from the Federal Government and other sources, public or private.

SECTION 4. State Budget and Control Board — powers and duties.—For purposes of this act, the State Budget and Control Board, hereinafter in this section referred to as the board, is hereby designated as the agency of the State which shall have the following powers and duties that are in accord with its already established responsibilities for custody of state properties, and for the management of all state sinking funds, insurance, and analogous fiscal matters that are relevant to state properties:

1. Expend state funds in order to acquire, develop and operate land and facilities which the board believes will foster the development of the State's economic potential in the atomic energy field. Such acquisition may be by lease, dedication, purchase, or other arrangements; *provided*, however, that the State's functions under the authority of this paragraph shall be limited to the specific purposes of this act.

2. Lease, sublease, or sell real and personal properties to public or private bodies when the board believes that such transactions will foster the development of the State's economic potential in the atomic energy field.

3. Assure the maintenance of such insurance coverage by state licenses, lessees, or sublessees as will in the opinion of the board protect the citizens of the State of South Carolina against nuclear incidents that may occur on state-controlled atomic energy facilities.

4. Assume responsibility for perpetual custody and maintenance of radioactive materials held for custodial purposes at any publicly or privately operated facility located within the State, in the event the parties operating such facilities abandon their responsibility, and whenever the Federal Government or any of its agencies has not assumed the responsibility.

In order to finance such perpetual custody and maintenance as the board may undertake, the board may collect fees from private or public parties holding radioactive materials for custodial purposes; *provided*, that the fees shall be sufficient in each individual case to

defray the estimated cost of the board's custodial management activities for that individual case. All such fees, when received by the board, shall be transmitted to the State Treasurer. The treasurer shall place the money in a special account, in the nature of a revolving trust fund, which may be designated "perpetual maintenance fund," to be disbursed on authorization of the board. Monies in the perpetual maintenance fund shall be invested by the Board in the manner as other state monies; *provided*, however, that any interest accruing as a result of investment shall accrue to this special perpetual maintenance fund. The perpetual maintenance fund shall be used exclusively for maintenance costs, or for otherwise satisfying custodial and maintenance obligations.

5. Enter into an agreement with the Federal Government or any of its authorized agencies to assume perpetual maintenance of lands donated, leased, or purchased from the Federal Government or any of its authorized agencies and used for development of atomic energy resources or as custodial site for radioactive material.

SECTION 5. State Board of Health—powers and duties.—The State Board of Health, hereinafter in this section referred to as the board, is designated as the agency of the State which shall be responsible for the control and regulation of radiation sources, but, notwithstanding anything in this act to the contrary, shall not have power to regulate, license, or control nuclear reactors or facilities or operations incident thereto in duplication of any activity of the Federal Government which has not been discontinued by agreement pursuant to Section 6 of this act.

In accordance with the laws of this State, the board shall employ, compensate and prescribe the powers and duties of such individuals as may be necessary to carry out the provisions of this act as it pertains to the board. The board shall establish a technical advisory council to assist it in performing its specialized responsibilities.

There shall be established a Technical Advisory Radiation Control Council, hereinafter called the Council, responsible to and reporting to the State Department of Health, which Council shall have the duty of advising the Department on matters pertaining to ionizing radiation and standards, rules and regulations to be adopted, modified, promulgated or repealed by the Department. No Standards, rules or regulations shall be adopted, modified, promulgated or repealed by the Department of Health except after consultation with the Council. The Council shall consist of five (5) members and one ex officio member

from the State Department of Health (designated by the State Health Officer). The five members of the Council shall be appointed by the Governor as follows: one member from the South Carolina Medical Association, one member from the South Carolina Dental Association, one member from the South Carolina Radiological Society, one member having recognized knowledge in the field of ionizing radiation and its biological effects from the Associated Industries of South Carolina, one member from the State at large having recognized knowledge in the field of ionizing radiation and its biological effects. The terms of office of the members first appointed shall be as follows: The member from the South Carolina Medical Association shall be appointed for a term of one (1) year, the members from the South Carolina Dental Association and the South Carolina Radiological Society shall be appointed for a term of two (2) years, and the other two members shall be appointed for a term of three (3) years, and the successors shall be appointed in full terms of three (3) years each.

When on business of the Council, members shall be entitled to receive per diem and expenses as shall be set and approved by the Budget Bureau conformable to rates and allowances set for members of other State Boards. The Council shall meet at least as frequently as semi-annually or at call of the Chairman, and minutes of the meetings of the Council shall be included in the minutes of the meeting of the Department of Health next occurring after the preparation of such minutes.

A consulting radiation physicist, certified by the American Board of Radiology, shall be available to the advisory council at its regular meetings and on request. The consulting physicist shall be paid on a per diem basis from budgeted funds.

The Board shall have the following powers and duties in connection with the control and regulation of radiation sources, in addition to its other duties as imposed by law:

1. Develop and conduct programs for evaluation of hazards associated with the use of radiation sources.
2. Develop and conduct programs for the control, surveillance, and regulation of radiation sources, not inconsistent with those prescribed by the U. S. Atomic Energy Commission, and with due regard for controls and regulations in effect in other states.
3. Formulate, adopt, promulgate, and repeal rules and regulations relating to the control of ionizing radiation.
4. Issue such orders or modifications thereof as may be necessary in connection with proceedings under this act.

5. Advise the Governor, the Legislature and relevant state agencies with regard to the status of radiation control, and consult and cooperate with the various departments, agencies, and political subdivisions of the State, the Federal Government, other states, interstate agencies, and with public and private groups concerned with the control of radiation sources and hazards.

7. Encourage, participate in, or conduct studies, investigation, training, and demonstrations relating to control of radiation sources.

8. Collect and disseminate information relating to control of radiation sources. The Board of Health is authorized to provide, by rule and regulation, for the licensing or registration of radiation sources or devices or equipment utilizing such sources. Such rules or regulations shall provide for amendment, suspension, or revocation of licenses.

No person shall receive, use, possess, or transfer any source of ionizing radiation unless registered, licensed, or exempted by the board.

The board is authorized to exempt certain radiation sources or kinds of uses or users from the licensing or regulation requirements set forth in this section, when the board makes a finding that the exemption of such radiation sources or kinds of uses or users will not constitute a significant risk to the health of the public.

The board or its duly authorized representatives shall have the power to enter at all reasonable times upon any private or public property for the purpose of determining whether or not there is compliance with or violation of the provisions of this act and rules and regulations issued thereunder. Any report of investigation or inspection or any information concerning trade secrets or secret industrial processes obtained under this act shall not be disclosed or opened to public inspection except as may be necessary for the performance of the functions of the board. The board shall require each person who possesses or uses any radiation source to maintain records relating to its receipt, storage, transfer, or disposal and such other records as the board may require, subject to such exemptions as may be provided by rules or regulations. Copies of these records shall be submitted to the board on written request. The board shall require each person who possesses or uses a radiation source to

maintain appropriate records showing the radiation exposure of all individuals for whom personnel monitoring is required by the rules and regulations of the board. Copies of these records and those required to be kept shall be submitted to the board on written request.

Any person possessing or using a radiation source shall furnish to each employee for whom personnel monitoring is required, or to such employee's physician, a copy of such employee's personal record at such times as the board, by rule or regulation, may prescribe.

Opportunity for public hearing shall be provided by the board in the case of issuance of modification of rules and regulations; granting, suspending, revoking or amending any license; and determining compliance with, or granting exceptions from, rules and regulations of the board. Any final order entered in any proceeding shall be subject to judicial review.

Whenever in the judgment of the board any person has engaged in or is about to engage in any acts or practices which constitute a violation of any provision of this act, or any rule, regulation, or order issued thereunder, at the request of the board, the Attorney General may make application to the court of common pleas for any order enjoining such acts or practices, or for any order directing compliance, and upon a showing by the board that such person has engaged in or is about to engage in any such acts or practices, a permanent or temporary injunction, restraining order, or other order may be granted.

In the case of an emergency, the board may impound sources of ionizing radiation in the possession of any person who is not equipped to comply with, or fails to comply with, the provisions of the act or the rules and regulations.

The board is authorized, subject to the approval of the Governor, to enter into agreements with the Federal Government, or other state or interstate agencies for the purpose of performing on a cooperative basis inspections or other functions relating to control of sources of ionizing radiation. The board is empowered to institute training programs for the purposes of qualifying personnel to carry out the provisions of this act.

Ordinances, resolutions, or regulations now or hereafter in effect, of the governing body of an agency or political subdivision of the State relating to radiation sources, shall not be superseded by this act if such ordinances or regulations are and continue to be consistent with the provisions of this act, amendments thereto and rules and regulations thereunder.

SECTION 6. Agreements with Federal Government—expiration of present licenses.—(a) The Governor, on behalf of the State, is authorized to enter into agreements with the Federal Government providing for discontinuance of certain of the Federal Government's activities with respect to radiation sources and the assumption thereof by the State toward the end of instituting and maintaining a regulatory program compatible with the standards and regulatory programs of the Federal Government and consonant in so far as possible with those of other states.

(b) Any person who on the effective date of an agreement under subsection (a) of this section possesses a license issued by the Federal Government authorizing activities, the regulation of which is assumed by the State under such agreement, shall be deemed to possess a license issued under this act, which shall expire either ninety days after receipt from the State Board of Health of a notice of expiration of such license, or ninety days after the date of expiration specified in the federal license, whichever is earlier.

SECTION 7. Penalties.—Any person who shall wilfully violate any rule or regulation promulgated pursuant to this act shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than one hundred dollars nor more than five hundred dollars or by imprisonment for a term of not more than one year, or by both such fine and imprisonment, for each separate violation. Each day upon which such violation occurs shall constitute a separate offense.

SECTION 8. Time effective.—This act shall take effect upon approval by the Governor.

(5) "On consignment" means any receiving or sale of agricultural products for the account of a person, other than the seller, wherein the seller acts as the agent for the owner.

(6) "Producer" means any producer of agricultural products produced in the State.

SECTION 2. Exemptions.—The provisions of this act shall not apply to:

SECTION 3. Licenses required.—From and after July 1, 1967, it shall be unlawful for any dealer in agricultural products, who comes within the provisions of this act, to engage in such business in this State without a state license issued by the commissioner.

SECTION 4. Applications for license.—Every dealer in agricultural products, desiring to transact business within the State, shall, prior to transacting such business, file an application for a license with the commissioner. License shall be renewed annually on its anniversary date. The application shall be on a form furnished by the commissioner and, together with such other information as the commissioner shall require, shall state:

(1) The kind of agricultural products the applicant proposes to handle;

(2) The full name or title of the applicant, or if the applicant be an association or copartnership, the name of each member of such association or copartnership, or if the applicant be a corporation, the name of each officer of the corporation;

The license fee for the principal place of business for a dealer in agricultural products shall be based upon the amount of agricultural dealer's surety bond furnished by each dealer under the provisions of Section 6 as follows: For bonds in the amount of one thousand dollars to four thousand nine hundred and ninety-nine dollars, the license fee is ten dollars. For bonds in the amount of five thousand dollars to nine thousand nine hundred and ninety-nine dollars, the license fee is twenty dollars. For bonds in the amount of fifteen thousand dollars to twenty thousand dollars or more, the license fee is forty dollars. Such bond shall be upon a form prescribed or approved by the commissioner and shall be conditioned to secure the faithful accounting for any payment to producers, their agents or representatives, of the proceeds of all agricultural products handled or sold by such dealer.

(2) The amount of such bond shall, upon the order of the commissioner at any time, be increased, if in his discretion the commissioner finds such increase to be warranted by the volume of agricultural products being handled by the principal or maker of such bond. In the same manner, the amount of such bond may be

decreased when a decrease in volume of products handled warrants such decrease in bond. These provisions shall apply to any bond, regardless of the anniversary date of its issuance, expiration or renewal.

(3) In order to effectuate the purposes of this section, the commissioner or his agents may require from any licensee verified statements of the volume of his business, and failure to furnish such statement or make and deliver a new or additional bond shall be cause for suspension of license. If, at a hearing after reasonable notice, the commissioner finds such failure to be willful, the license may be revoked.

SECTION 7. Complaints against dealers.—Any person claiming himself to be damaged by any breach of the conditions of a bond given by a licensed dealer in agricultural products may enter a complaint to the commissioner, which complaint shall be a written statement of the facts constituting such complaint. Such complaint shall be filed within six months from the date of the last transaction between the complaining producer and the dealer complained against. Upon filing such complaint, the commissioner shall investigate the charges made; whereupon, if in the opinion of the commissioner the facts contained in the complaint warrant such action, a copy of the complaint shall be forwarded by the commissioner to such dealer who shall be called upon to answer the complaint in writing within a reasonable time to be prescribed by the commissioner. At his discretion the commissioner may order a hearing before him giving the complainant and the respondent notice of the time and place of such hearing. At the conclusion of such hearing the commissioner shall report his findings and make his order upon the matters complained of to the complainant and the respondent in each case, who shall then have fifteen days in which to make effective and satisfy the commissioner's order. If such settlement is not effected within such time, the commissioner or the producer may maintain a civil action against the principal and surety on the bond of the party against whom the order was directed, setting forth briefly in the complaint in such civil action the causes for which damages are complained. (e) The Highway Department shall properly supervise and cause inspections to be made of such stations and may, after reasonable notice, suspend or revoke and require the surrender of the permit issued to a station which it finds is not properly equipped or conducted. The failure to discover any defect in any vehicle in the course of an inspection under the provisions of this article shall not be made the basis of an action for damages in any court.

Provided, that any owner of a motor vehicle may file a complaint, after his vehicle has been inspected by an official inspection station, either before or after repairs have been made as required by the inspection, with the State Highway Department, and the Department shall forthwith investigate such complaint and may revoke or suspend the license of any official inspection station found to be improperly conducted and may require the refund to the owner of the inspection fee, if it is determined that the complaint was justified."

An Act To Provide For The Acquisition Of Private Property For Slum Clearance And Redevelopment In York County For Public And Private Re-Use By Purchase Or Condemnation; To Prescribe Limitations On The Sale Of Condemned Property Used For Private Purposes; And To Prescribe Other Necessary Procedures.

Be it enacted by the General Assembly of the State of South Carolina :

SECTION 1. Purpose of act.—It is the purpose of this act to implement, in accordance with its terms, the amendment proposed to Article I, Section 17, Constitution of South Carolina, 1895, by Joint Resolution No. 1429 of 1966, approved by the qualified electors in the general election of 1966, and ratified on February 2, 1967 by an act of the General Assembly bearing Ratification No. 18. This act shall be deemed to be cumulative and in addition to any other provisions of law dealing with this subject. Any existing provisions of law which may have been for any reason ineffective prior to ratification of the constitutional amendment herein mentioned are declared to be fully effective within York County, subject to the conditions and limitations imposed by the constitutional amendment including, but not limited to, Sections 36-101 through 36-414, Code of Laws of South Carolina, 1962.

SECTION 2. Municipalities—slum clearance and redevelopment—Pursuant to Article I, Section 17, Constitution of South Carolina, 1895, as amended, municipalities in York County, acting through their municipal councils or through any housing or redevelopment authority, now or hereafter established, are authorized to undertake and carry out slum clearance and redevelopment work in areas which are determined by any such municipal council to be predominantly slum or blighted areas.

SECTION 3. Acquisition of property.—For such purposes, the municipalities may acquire areas, in whole or in part, through private purchase or through exercise of the power of eminent domain, in the manner prescribed by law for condemnation proceedings by municipalities, or by any housing or redevelopment authority, as to any property determined by any such municipal council to be essential to the plan of slum clearance and redevelopment subject to payment of just compensation for all property taken by eminent domain.

SECTION 4. Private use of property.—Where re-use of any property acquired by condemnation is for private use, the condemnee shall be given first opportunity to purchase the land when it is sold by the condemnor for re-use, in the manner hereinafter prescribed.

SECTION 5. Further.—Any area acquired, or any part thereof, may be prepared for re-use and sold or leased to public bodies for public use or to private interests for private use in the manner and at a cost determined in an approved redevelopment plan.

SECTION 6. Expense of relocating transmission lines, etc.—When land is condemned and re-use is for private purposes, and there is located thereon any main underground subway system, interstate toll lines, transmission lines, transformer vaults or railroad main line trackage, the total compensation to any public utility or railroad from which such property is acquired shall not exceed the reasonable expense incurred in relocating the systems, lines, vaults or trackage affected by such taking.

SECTION 7. Notice required—private use.—When a sale to private enterprise for private use is to be made as a result of a determination made pursuant to the approved plan, all condemnees from whom any property was taken by condemnation shall be given at least twenty days' notice that a sale will be held at a time and place fixed in the notice. The notice shall be served as a summons by personal service within or without the State, or by publication and mailing, in the manner required for service in a civil action. When notice is given by publication, publication shall be completed twenty days prior to the sale.

SECTION 8. Sales—procedure for.—Sales shall be conducted in the manner and order of priority set forth below:

(a) Any individual parcel acquired from a condemnee, or any portion thereof, which can be offered for sale independently of any

other property on a feasible basis as determined by the condemnor, shall be offered for resale to the condemnee from whom it was acquired at such price as the condemnor shall determine to be fair and reasonable for the land in its existing condition, after preparation for re-use and improvement, pursuant to the plan under which it was acquired, or after determination that such land or portion thereof is no longer required for the plan of slum clearance and redevelopment.

(b) The condemnee must advise the condemnor in writing at the time of sale whether the right of repurchase will be exercised or waived. Failure to answer or reply to the notice shall constitute a waiver and terminate all rights of repurchase. Upon exercise of the right, the condemnee shall deposit with the condemnor twenty-five per cent of the purchase price as earnest money and pay the remaining seventy-five per cent within ten days, at which time he shall be given a deed to the property purchased. The condemnor may grant further time in writing for proper cause. Upon failure of the condemnee to exercise the right of repurchase in the manner herein prescribed, such right shall be waived and the condemnor may thereupon sell or dispose of the property without regard to any right of repurchase in the condemnee.

(c) If two or more parcels, or parts thereof, acquired from two or more condemnees, are to be sold as a whole to private enterprise for private use, because of a determination by the condemnor that sale in separate parcels is not feasible and reasonable, the combined parcels shall be offered for sale to all condemnees from whom any part of the property being sold was acquired, at a price the condemnor shall determine to be fair and reasonable for the land in its existing condition, after preparation for re-use and improvement, pursuant to the plan under which it was acquired, or determination that the land, or the portion thereof, is no longer needed for the plan of slum clearance and redevelopment. The condemnee purchasers shall in such case take title as tenants in common in shares proportionate to the ratio that the amount of condemned land formerly owned by them bears to the entire tract being sold, or as they shall otherwise mutually agree in writing. The tenants in common shall acquire ownership subject to the usual paramount right of partition provided by law.

(d) Consummation of sale pursuant to paragraph (c) above shall be accomplished as in paragraph (b), with each condemnee being responsible for his own pro rata share of the purchase price. On

failure of payment or forfeiture by any one condemnee, all remaining condemnees may take over the forfeited rights proportionately between them or as may be otherwise agreed in writing between all remaining condemnees and the condemnor.

(e) Should any such lands remain unsold after fulfillment of the requirements of paragraphs (a) through (d), or should a former owner waive and relinquish in writing any repurchase right vested in him, the condemnor may sell or otherwise dispose of the property, at public or private sale, in such manner and upon such terms and conditions as shall be determined by the condemnor, acting through its municipal council or housing or redevelopment authority.

(f) The offer to allow repurchase by the condemnee of lands condemned, as provided for in this act, is hereby declared to be a proper fulfillment of the right of repurchase preserved in Article I, Section 17, Constitution of South Carolina, 1895, relating to the sale of condemned lands for private use.

(g) Any condemnee served with a notice of sale who contests the validity of condemnation of his land and subsequent sale for private use shall commence his action to contest such proceedings, including the filing of a *lis pendens*, within thirty days of the sale of the land formerly owned by him and condemned and sold pursuant to the provisions of this act. Failure to bring such action within the time specified shall constitute a waiver and shall bar any future action, claim or right by the condemnee relating to the title to the subject property.

SECTION 9. Property restrictions.—Any lands acquired by condemnation or otherwise for slum clearance or redevelopment work, whether for public or private use, may be subjected to such property restrictions as are considered reasonable and necessary by the acquiring agency to maintain the type and character of the area being created under the acquisition program. The restrictions shall remain effective for twenty years and automatically renew in successive ten-year periods thereafter, unless changed or modified at that time by a majority vote of the then owners of all lands affected by the restrictions. A lesser period of time may be prescribed by the acquiring agency when this is deemed adequate and sufficient.

SECTION 10. Leases.—A lease for private re-use of lands required by condemnation shall not constitute a sale within the meaning of the requirement that the condemnee from whom any lands are taken

shall be offered the first right to repurchase upon any sale thereof to private enterprise for private use.

SECTION 11. When property not required to be offered to condemnee.—A determination by any municipal council or housing or redevelopment authority as condemnor that any lands, property or property rights shall be applied to other than sale to private enterprise for private use shall discharge any requirement for offering to the condemnee from whom such lands were acquired the first right to repurchase, provided some other use of such lands is made pursuant to such determination. A subsequent change of use made in good faith at some future time shall not reinstate any right of repurchase already lost and extinguished by virtue of the initial determination that re-use would not involve sale to private enterprise for private use.

SECTION 12. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 30th day of May, 1967.

An Act To Amend Sections 69-103, 69-122 And 69-133.1, Code Of Laws Of South Carolina, 1962, Relating To The State Warehouse System, So As To Provide Further For Employees Of The System, Bond Requirements And Conditions For Such Bonds; To Add Certain Additional Insurance Requirements; And To Increase The Warehouse Receipts Guarantee Fund To Five Hundred Thousand Dollars, To Authorize Investment Of Such Fund By The State Treasurer, And To Require An Additional Fee For The Issuance Of Warehouse Receipts To Maintain The Guarantee Fund.

Be it enacted by the General Assembly of the State of South Carolina :

SECTION 1. Section 69-103 amended—employees of system—bonds required.—Section 69-103 of the 1962 Code is amended so as to make additional provision for employees of the warehouse system and bonds for such employees by striking the section and inserting:

“Section 69-103. The Department shall appoint clerks, officers and all necessary employees to carry out the provisions of this

chapter and shall fix their salaries. The Department shall, to safeguard the interests of the State and of holders of warehouse receipts issued under this Title, require bonds, either individual or blanket, at the option of the department, from such officers, clerks or employees for the faithful performance of their duties. Such bonds shall be in an amount not less than fifty per centum of all outstanding warehouse receipts issued by each warehouseman pursuant to the provisions of this chapter but shall not exceed the amount of five hundred thousand dollars for each such warehouse; *provided*, that on goods stored by the Commodity Credit Corporation, the Agricultural Stabilization Corporation or other similar federal agencies, the per centum shall be not less than twenty-five per cent. The bonds shall provide that the warehouse manager shall faithfully discharge the duties of his office and shall promptly account for and pay over, according to law, all money and property received by him by virtue of his office and, in case of default, the surety shall pay all damages, costs and expenses resulting from such default. In the event of any such default, the holder of the warehouse receipt may proceed directly against the warehouse manager or surety or both on the bond to recover such loss, and any surety or other insurer who has been required to respond financially upon such action will be subrogated to all rights of the holder of the warehouse receipt. No person who has commodities stored in a warehouse shall act as manager of such warehouse."

SECTION 2. Section 69-122 amended—insurance.—Section 69-122 of the 1962 Code is amended to require increased insurance coverage by inserting after "fire" on line two "theft, burglary and such other hazards as are commonly insured against, under 'extended coverage' provisions," and by striking on lines eleven and twelve ". The State shall have a lien on the cotton and other products" so that, when so amended, the section shall read:

"Section 69-122. The Commissioner shall insure and shall keep insured against loss or damage by fire, theft, burglary and such other hazards as are commonly insured against, under 'extended coverage' provisions, for its full value, upon the best terms obtainable by individual or blanket policies, all cotton and other products on storage unless requested by the depositor in writing not to insure such cotton or other products and in such instance when the cotton or other products are not insured a statement to such effect shall be plainly and conspicuously inserted on the face of the receipt. In case of loss the Commissioner shall collect the insurance due and pay it ratably

to those lawfully entitled thereto. The insurance policies shall be made payable to the State and the premiums collected from the owners of the cotton or other products for insurance and storage charges as other public warehouses in the State. But the Commissioner may accept contracts for the storage of cotton in the State warehouse system submitted by the Commodity Credit Corporation and other United States governmental agencies without being required to carry insurance on such cotton and may accept similar contracts from other persons when adequate insurance is provided and the approval and acceptance of such other insurance shall relieve the Commissioner of any requirement otherwise to insure such cotton."

SECTION 3. Section 69-133.1 amended—disposition of revenues—warehouse receipts guarantee fund.—Section 69-133.1 of the 1962 Code is amended to increase the warehouse receipts guarantee fund to five hundred thousand dollars, to authorize investment of such fund by the State Treasurer and to require an additional fee for the issuance of warehouse receipts to maintain the guarantee fund by striking the entire section and inserting:

"Section 69-133.1. All net revenues derived from operation of the state warehouse system, over and above the amounts necessary to pay insurance premiums and premiums on the bonds of warehousemen, shall be transferred annually to a special account in the State Treasury until the sum of five hundred thousand dollars shall have accrued therein, and such sum shall be maintained at five hundred thousand dollars thereafter by annual transfers to the account, from such excess warehouse revenues, of whatever amount is necessary to restore the fund to the sum of five hundred thousand dollars. In order to support the increase of this fund to the sum of five hundred thousand dollars, the funds shall be invested at interest by the State Treasurer who shall credit any interest earned thereon to the increase of the fund. In addition to such interest, the Commissioner shall also assess an amount ratably against each warehouseman in South Carolina issuing warehouse receipts hereunder a special additional fee not to exceed one cent per bale of cotton and one-twentieth cent per bushel of grain for which warehouse receipts have been issued commencing July 1, 1967. When the fund has reached the total sum of five hundred thousand dollars, such special additional assessment shall be discontinued.

Such funds shall be used to guarantee state warehouse receipts in excess of any amount recovered from the bonds required hereunder.

In no event shall such funds be available for the reimbursement of any insurer or surety on the bonds required by this Title who shall have paid a loss hereunder."

SECTION 4. Time effective.—This act shall take effect upon approval by the Governor.

SECTION 3. Establishment of horizontal property regimes.—

Whenever a sole owner or the co-owners of property expressly declare, through the recordation of a master deed, which shall set forth the particulars enumerated in Section 10, their desire to submit their property to the regime established by this act, there shall thereby be established a horizontal property regime.

SECTION 4. Apartments may be purchased and owned.—

Once the property is submitted to the horizontal property regime, an apartment in the property may be individually conveyed and encumbered and may be the subject of ownership, possession or sale and of all types of juridic acts *inter vivos* or *mortis causa*, as if

it were sole and entirely independent of the other apartments in the property of which it forms a part, and the corresponding individual titles and interests shall be recordable.

SECTION 5. More than one person may own apartment.—Any apartment may be held and owned by more than one person as tenants in common or in any other real estate tenancy relationship recognized under the laws of this State.

SECTION 6. Property rights of apartment owner.—An apartment owner shall have the exclusive ownership of his apartment and shall have a common right to a share, with the other co-owners, in the common elements of the property, equivalent to the percentage representing the value of the individual apartment, with relation to the value of the whole property. This percentage shall be computed by taking as a basis the value of the individual apartment in relation to the value of the property as a whole.

The percentage shall be expressed at the time the horizontal property regime is constituted, shall have a permanent character, and shall not be altered without the acquiescence of the co-owners representing all the apartments of the property.

The basic value, which shall be fixed for the sole purpose of this act and irrespectively of the actual value, shall not prevent each co-owner from fixing a different circumstantial value to his apartment in all types of acts and contracts.

SECTION 7. Common elements not to be divided.—The common elements, both general and limited, shall remain undivided and shall not be the object of an action for partition or division of the co-ownership. Any covenant to the contrary shall be void.

SECTION 8. Use of elements.—Each co-owner may use the elements held in common in accordance with the purpose for which they are intended, without hindering or encroaching upon the lawful rights of the other co-owners.

SECTION 9. Incorporation authorized.—Nothing herein contained shall prohibit any council of co-owners from incorporating pursuant to the laws of South Carolina for the purpose of the administration of the property constituted into a horizontal property regime. In the event of such incorporation, the percentage of stock ownership of each co-owner in the corporation shall be equal to the percentage of his right to share in the common elements as computed in accordance with the provisions of this act.

SECTION 10. Master deed to be recorded—contents.—The master deed creating and establishing the horizontal property regime shall be executed by the owner or owners of the real property making up the regime and shall be recorded with the register of mesne conveyance or clerk of court of the county where such property is located. The master deed shall express the following particulars:

(a) The description of the land and the building, expressing their respective areas;

(b) The general description and number of each apartment, expressing its area, location and any other data necessary for its identification;

(c) The description of the general common elements of the property, and, in proper cases, of the limited common elements restricted to a given number of apartments, expressing which are those apartments;

(d) The value of the property and of each apartment, and, according to these basic values, the percentage appertaining to the co-owners in the expenses of, and rights in, the elements held in common; and

(e) The name by which the horizontal property regime is to be known followed by the words "HORIZONTAL PROPERTY REGIME."

SECTION 11. Building plans to accompany deed.—There shall be attached to the master deed, at the time it is filed for record a plot plan showing the location of the building and other improvements, a set of floor plans of the building which shall show graphically the dimensions, area and location of each apartment therein and the dimension, area and location of common elements affording access to each apartment. Other common elements, both limited and general, shall be shown graphically insofar as possible and shall be described in detail in words and figures. The plans shall be certified to by an engineer or architect authorized and licensed to practice his profession in this State.

SECTION 12. Designation of apartment.—Each apartment in a building shall be designated on the plans referred to in Section 11, by letter or number or other appropriate designation and any conveyance, or other instrument affecting title to the apartment, which describes the apartment by using the letter or number followed by the words "in. . . Horizontal Property Regime," shall be deemed to contain a good and sufficient description for all purposes. Any conveyance of an individual apartment shall be deemed to also convey the undi-

vided interest of the owner in the common elements, both general and limited, appertaining to the apartment without specifically or particularly referring to same.

SECTION 13. Horizontal property regime may be waived and merged.—All the co-owners or the sole owner of the property constituted into an horizontal property regime may waive the regime and regroup or merge the records of the individual apartments with the principal property, provided that the individual apartments are unencumbered, or if encumbered, that the creditors in whose behalf the encumbrances are recorded agree to accept as security the undivided portions of the property owned by the debtors.

SECTION 14. Merger not to bar another horizontal property regime.—The merger provided for in the preceding section shall in no way bar the subsequent constitution of the property into another horizontal property regime whenever so desired and upon observance of the provisions of this act.

SECTION 15. Building to be governed by bylaws.—The administration of the property constituted into horizontal property, whether incorporated or unincorporated, shall be governed by bylaws which shall be inserted in or appended to and recorded with the master deed.

SECTION 16. Provisions of bylaws.—The bylaws must necessarily provide for at least the following :

(a) Form of administration, indicating whether this shall be in charge of an administrator or of a board of administration, or otherwise, and specifying the powers, manner of removal and, where proper, the compensation thereof;

(b) Method of calling or summoning the co-owners to assemble; that a majority of at least fifty-one per cent is required to adopt decisions; who is to preside over the meeting and who will keep the minutes book wherein the resolutions shall be recorded;

(c) Care, upkeep and surveillance of the property and its general or limited common elements and services;

(d) Manner of collecting from the co-owners for the payment of the common expenses;

(e) Designation and dismissal of the personnel necessary for the works and the general or limited common services of the property.

The sole owner of the property or, if there be more than one, the co-owners representing two-thirds of the total value of the property,

may at any time modify the system of administration, but each one of the particulars set forth in this section shall always be embodied in the bylaws. No such modification may be operative until it is embodied in a recorded instrument which shall be recorded in the same office and in the same manner as was the master deed and original bylaws of the horizontal property regime involved.

SECTION 17. Compliance with bylaws.—Each co-owner shall comply strictly with the bylaws and with the administrative rules and regulations adopted pursuant thereto, as either of the same may be lawfully amended from time to time, and with the covenants, conditions and restrictions set forth in the master deed or in the deed to his apartment. Failure to comply with any of the same shall be grounds for a civil action to recover sums due for damages or injunctive relief, or both, maintainable by the administrator or the board of administration, or other form of administration specified in the bylaws, on behalf of the council of co-owners or, in a proper case, by an aggrieved co-owner.

SECTION 18. Records of receipts and expenditures.—The administrator or the board of administration, or other form of administration specified in the bylaws, shall keep a book with a detailed account, in chronological order, of the receipts and expenditures affecting the property and its administration, and specifying the maintenance and repair expenses of the common elements and any other expenses incurred. Both the book and the vouchers accrediting the entries made thereupon shall be available for examination by all the co-owners at convenient hours on working days that shall be set and announced for general knowledge.

SECTION 19. Expenses to be shared.—The co-owners of the apartments are bound to contribute pro rata in the percentages computed according to Section 6 toward the expenses of administration and of maintenance and repair of the general common elements and, in the proper case, of the limited common elements of the property and toward any other expense lawfully agreed upon.

No co-owner may exempt himself from contributing toward such expenses by waiver of the use or enjoyment of the common elements or by abandonment of the apartment belonging to him.

SECTION 20. Certain unpaid assessments to be paid from sales price.—Upon the sale or conveyance of an apartment, all unpaid assessments against a co-owner for his pro rata share in

the expenses to which Section 19 refers shall first be paid out of the sales price or by the acquirer in preference over any other assessments or charges of whatever nature except the following:

(a) Assessments, liens and charges for taxes past due and unpaid on the apartment; and

(b) Payments due under mortgage instruments or encumbrances duly recorded.

SECTION 21. Unpaid assessments to constitute lien—foreclosures.—(a) All sums assessed by the administrator, or the board of administration, or other form of administration specified in the bylaws, but unpaid, for the share of common expenses chargeable to any apartment shall constitute a lien on such apartment prior to all other liens except only (i) tax liens on the apartment in favor of any assessing unit, and (ii) mortgage and other liens, duly recorded, encumbering the apartment. Such lien may be foreclosed by suit by the administrator, or the board of administration, or other form of administration specified in the bylaws, acting on behalf of the council of co-owners, in like manner as a mortgage of real property. In any such foreclosure the apartment owner shall be required to pay a reasonable rental for the apartment after the commencement of the foreclosure action and the plaintiff in such foreclosure shall be entitled to the appointment of a receiver to collect such rents. The administrator, or the board of administration, or other form of administration specified in the bylaws, acting on behalf of the council of co-owners, shall have the power to bid in the apartment at foreclosure sale and to acquire and hold, lease, mortgage and convey the same. Suit to recover a money judgment for unpaid common expenses may be maintainable without instituting foreclosure proceedings.

(b) Where the mortgagee of any mortgage of record or other purchaser of an apartment obtains title at the foreclosure sale of such a mortgage, such acquirer of title, his successors and assigns, shall not be liable for the share of the common expenses or assessments by the co-owners chargeable to such apartment accruing after the date of recording such mortgage but prior to the acquisition of title to such apartment by such acquirer. Such unpaid share of common expenses or assessments shall be deemed to be common expenses collectible from all of the apartment owners, including such acquirer, his successors and assigns.

SECTION 22. Liability of purchaser.—The purchaser of an apartment (other than a purchaser at a foreclosure sale as described above

in Section 21 (b)) shall be jointly and severally liable with the seller for the amounts owing by the latter under Section 19 up to the time of the conveyance, without prejudice to the purchaser's right to recover from the other party the amounts paid by him as such joint debtor. The council of co-owners shall provide for the issuance and shall issue to any purchaser, upon his request, a statement of such amounts due by the seller and the purchaser's liability under this section shall be limited to the amount as set forth in the statement.

SECTION 23. Effect of liens.—(a) No lien arising subsequent to recording the master deed as provided in this act, and while the property remains subject to this act, shall be effective against the property. During such period liens or encumbrances shall arise or be created only against each apartment and the percentage of undivided interest in the common elements appurtenant to such apartment, in the same manner and under the same conditions in every respect as liens or encumbrances may arise or be created upon or against any other separate parcel of real property subject to individual ownership; *provided*, that no labor performed or materials furnished with the consent or at the request of a co-owner or his agent or his contractor or subcontractor, shall be the basis for the filing of a mechanic's or materialman's lien against the apartment or any other property of any other co-owner not expressly consenting to or requesting the same, except that such express consent shall be deemed to be given by the owner of any apartment in the case of emergency repairs thereto. Labor performed or materials furnished for the common elements, if duly authorized by the council of co-owners, the administrator or board of administration or other administration specified by the bylaws, in accordance with this act, the master deed or bylaws, shall be deemed to be performed or furnished with the express consent of each co-owner and shall be the basis for the filing of a mechanic's or materialman's lien against each of the apartments and shall be subject to the provisions of subparagraph (b) hereunder.

(b) In the event a lien against two or more apartments becomes effective, the owners of the separate apartments may remove their apartment and the percentage of undivided interest in the common areas and facilities appurtenant to such apartment from the lien by payment of the fractional or proportional amounts attributable to each of the apartments affected. Such individual payment shall be computed by reference to the percentages appearing in the master deed. Subsequent to any such payment, discharge or other satisfaction, the apartment and the percentage of undivided interest in

the common elements appurtenant thereto shall thereafter be free and clear of the lien so paid, satisfied or discharged. Such partial payment, satisfaction or discharge shall not prevent the lienor from proceeding to enforce his rights against any apartment and the percentage of undivided interest in the common elements appurtenant thereto not so paid, satisfied or discharged.

SECTION 24. Property to be insured.—The council of co-owners shall insure the property against risks, without prejudice to the right of each co-owner to insure his apartment on his own account and for his own benefit.

SECTION 25. Fire and insurance benefits to be used to reconstruct building.—In case of fire or any other disaster, the insurance indemnity shall, except as provided in the following paragraph, be applied to reconstruct the building.

Reconstruction shall not be compulsory where it comprises the whole or more than two-thirds of the property. In such case, and unless otherwise unanimously agreed upon by the co-owners, the indemnity shall be delivered pro rata to the co-owners entitled to it in accordance with provision made in the bylaws or in accordance with a decision of three-fourths of the co-owners if there is no bylaw provision.

Should it be proper to proceed with the reconstruction, the provisions for such eventuality made in the bylaws shall be observed, or, in lieu thereof, the decision of the council of co-owners shall prevail.

SECTION 26. Sharing of expenses in case of fire.—Where the property is not insured or where the insurance indemnity is insufficient to cover the cost of reconstruction, the rebuilding costs shall be paid by all the co-owners directly affected by the damage, in proportion to the value of their respective apartments, or as may be provided in the bylaws; and if any one or more of those composing the minority shall refuse to make such payments, the majority may proceed with the reconstruction at the expense of all the co-owners benefited thereby, upon proper resolution setting forth the circumstances of the case and the cost of the works, with the intervention of the council of co-owners.

The provisions of this section may be changed by unanimous resolution of the parties concerned, adopted subsequent to the date on which the fire or other disaster occurred.

SECTION 27. Assessment of taxes.—Taxes, assessments and other charges of this State, or of any political subdivision, or of any special improvement district, or of any other taxing or assessing authority shall be assessed against and collected on each individual apartment, each of which shall be carried on the tax books as a separate and distinct entity for that purpose, and not on the building or property as a whole. No forfeiture or sale of the building or property as a whole for delinquent taxes, assessments or charges shall ever divest or in anywise affect the title to an individual apartment so long as taxes, assessments and charges on the individual apartment are currently paid.

SECTION 28. Council to have access to apartment.—The council of co-owners shall have the irrevocable right, to be exercised by the administrator or the board of administration, or other form of administration specified in the bylaws, to have access to each apartment from time to time during reasonable hours as may be necessary for the maintenance, repair or replacement of any of the common elements therein or accessible therefrom, or for making emergency repairs therein necessary to prevent damage to the common elements or to another apartment or apartments.

SECTION 29. Liability of co-owners limited.—The liability of each co-owner for common expenses shall be limited to the amounts for which he is assessed from time to time in accordance with this act, the master deed and the bylaws.

SECTION 30. Not to affect prior contracts.—The provisions of this act shall in no way impair, alter or revise any contract entered into with regard to horizontal properties or condominiums prior to the effective date of this act.

SECTION 31. Repeal.—Act No. 750 of 1962 is hereby repealed.

SECTION 32. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 7th day of June, 1967.

SECTION 2. Municipalities in Spartanburg County may carry out slum clearance.—The power and authority of municipalities in Spartanburg County to carry out slum clearance, urban renewal and redevelopment work in such municipalities, in predominantly blighted and depressed sections of the central city and similar depressed and predominantly slum residential areas, is hereby confirmed and such municipality may exercise all the power and authority now authorized by law or hereafter vested therein through the action of the City Council or through any housing, redevelopment or urban renewal authority now existing by law or hereafter established. Each municipality may provide, by ordinance, the procedure to be followed in connection with such slum clearance, urban renewal and redevelopment work as may be necessary to develop an orderly and sound plan for such projects.

SECTION 3. Eminent domain.—Any municipality in Spartanburg County or any agency or authority thereof authorized to undertake and carry out redevelopment or urban renewal projects shall have all of the authority provided for in Chapters 2, 3, and 4 of Title 36 of the 1962 Code. (a) The proposed use would result in an assessed valuation for taxation greater than that of the high bidder;

(b) The proposed use would have a substantially greater beneficial effect upon the neighboring property, the project area, and the community as a whole than that of the high bidder; or

(c) The proposed use would facilitate the relocation of persons displaced by redevelopment to a substantially greater degree than that of the high bidder.

SECTION 6. Further.—When any property acquired through condemnation is intended to be resold or leased for private purposes to private persons the landowner may be allowed a reasonable attorney's fee in connection with any appeal which he may take from the Award of the Board of Condemnation as provided hereinafter. Such attorney's fee, which shall be fixed by the judge of the court of common pleas, shall be measured by the amount of increase awarded above the amount of the Award of the Board of Condemnation, and shall be taxed as a part of the court costs to be paid by the municipality. No attorney's fee shall be awarded unless the jury shall grant an increase over the award of the Board of Condemnation and such attorney's fee shall not exceed the minimum fee prescribed by the Spartanburg County Bar Association fee schedule.

SECTION 7. Saving Clause.—The provisions of this act are not intended to be mutually dependent upon each other and the invalidity of any sentence, paragraph or provision of this act shall not affect or disturb the remaining sentences, paragraphs or provisions unless the context clearly so requires.

No. 349

An Act To Amend Section 1-645, Code Of Laws Of South Carolina, 1962, Relating To The Filing Of Public Bonds Of Political Subdivisions, And To Amend The Code Of Laws Of South Carolina, 1962, By Adding Section 1-644.1, So As To Require Copies Of Proceedings Relating To The Issuance Of Bonds By The State Be Filed In The Office Of The Secretary Of State, And To Provide For The Time Within Which Actions Contesting The Issuance Of Such Bonds May Be Brought.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that the provisions of Section 1-644 of the Code of Laws of South Carolina, 1962, prescribe that in case any county, township, school district, city, town or other municipality is authorized to issue bonds, the persons and officers charged therewith are required to make a full record of the proceedings connected with such bond issue and to file a copy in the office of the clerk of court for the county in which such public agency is located, and Section 1-646 makes provision for subsequent reports.

However, the provisions of this statute do not require that those in charge of the issuance of bonds of the State itself, or of agencies of the State, make any record or cause such records to be filed. Many statutes exist authorizing the issuance of general obligation bonds of the State, and other statutes exist permitting the issuance of bonds of public agencies of the State, including authorities and state institutions. It has been determined that it is in the public interest that no bonds should be issued by the State or any public agency or authority of the State unless and until a record of the proceedings relating thereto be prepared and be filed with the Secretary of State.

On the basis of the foregoing, the General Assembly has determined to add Section 1-644.1 and amend 1-645 in order to insure the making and filing of records in accordance with the intention expressed herein.

SECTION 2. Section 1-644.1—added—definitions—proceedings relating to issuance.—The Code of Laws of South Carolina, 1962, is amended by adding Section 1-644.1 to read as follows:

“Section 1-644.1. 1. Definitions:

(a) ‘*Bonds*’ shall include general obligations of the issuer and obligations of the issuer payable in whole or in part from any special fund or other source, any part of which is expressed to mature more than twelve months from the date thereof but shall not include obligations issued in anticipation of the collection of taxes or in anticipation of the issuance of bonds.

(b) ‘*State agency*’ shall mean the State of South Carolina, its agencies and institutions.

(c) ‘*Governing board*’ shall mean the board, commission, board of trustees, authority, or any other public body upon which is devolved by law the administrative and executive duties relating to the issuance of bonds of any state agency.

2. In every instance where the governing board of any State agency shall propose to effect the issuance of bonds, it shall make a full record of the proceedings relating to the issuance of such bonds, exclusive of papers and documents relating to the delivery of such bonds, and shall, prior to the delivery of such bonds, file a copy of such record in the office of the Secretary of State. It shall be the duty of the Secretary of State to file and index the record in a special book to be kept by such officer for such purpose. The Secretary of State shall be authorized to prepare and deliver certified copies of the records as thus filed and to deliver them to the pur-

chasers of the bonds or other interested parties. For each such certification a reasonable fee may be charged."

SECTION 3. Section 1-645 amended—when actions may be brought.—Section 1-645, Code of Laws of South Carolina, 1962, is amended by striking it out in its entirety and inserting in lieu thereof the following:

"Section 1-645. No action shall be commenced on account of the issuance of any such bonds after the expiration of twenty days from the date of the filing and indexing of such records as prescribed by Section 1-644 and 1-644.1, and such bonds so issued, when in the hands of a bona fide purchaser for value, shall be incontestable, but the period within which such actions may be commenced shall not begin to run until such records have been filed as herein prescribed."

SECTION 4. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 15th day of June, 1967.

coordinators for such instruction shall be the responsibility of the appropriate educational agencies.

SECTION 5. Local apprenticeship committees.—A local apprenticeship committee may be appointed in any trade or group of trades in a city or trade area, by the apprenticeship council, whenever the apprentice training needs of such trade or group of trades justifies such establishment. Such local apprenticeship committee shall be composed of an equal number of employer and employee representatives. The function of a local apprenticeship committee shall be: to cooperate with school authorities in regard to the education of apprentices; in accordance with the standards set up by the apprenticeship committee for the same trade or group of trades, where such committee has been appointed, to work in an advisory capacity with employers and employees in matters regarding schedule of operations, application of wage rates, and working conditions for apprentices and to specify the number of apprentices which shall be employed locally in the trade under apprentice agreements under this act; and to adjust apprenticeship disputes, subject to the approval of the apprenticeship council. The local apprenticeship committee shall have authority to transfer, place, accept or reject apprentices as in its judgment will promote the best interest of the apprentice training program herein authorized.

SECTION 6. Apprentice defined.—The term “apprentice”, as used herein, shall mean a person at least sixteen years of age who is covered by a written agreement, acting as employer’s agent, and approved by the apprenticeship council, which apprentice agreement provides for not less than four thousand hours of reasonably continuous employment for such person for his participation in an approved schedule of work experience and for at least one hundred forty-four hours per year of related supplemental instruction. Where a minor enters into an apprentice agreement under this act for a period of training extending into his majority, the apprentice agreement shall likewise be binding for such a period as may be covered during the apprentice's majority.

SECTION 9. Group agreements.—For the purpose of providing greater diversity of training or continuity of employment, any apprentice agreement made under this act may, in the discretion of the apprenticeship council, be signed by an association of employers or organization of employees instead of by an individual employer. In such case, the apprentice agreement shall expressly provide that the association of employers or organization of employees does not assume the obligation of an employer but agrees to use its best endeavors to procure employment and training for such apprentice with one or more employers who will accept full responsibility, as herein provided, for all the terms and conditions of employment and training set forth in the agreement between the apprentice and employer association or employee organization during the period of each such employment. The apprentice agreement in such a case shall also expressly provide for the transfer of the apprentice, subject to the approval of the commissioner, to such employer who shall sign a written agreement with the apprentice and, if the apprentice is a minor, with his parent or guardian, contracting to employ the apprentice for the whole or a definite part of the total period of apprenticeship under the terms and conditions of employment and training set forth in the agreement entered into between the apprentice and employer association or employee organization.

SECTION 10. Scope of agreements, voluntary nature.—Nothing in this act or in any apprentice agreement approved under this act shall operate to invalidate any apprenticeship provision in any collective agreement between employers and employees, setting up higher apprenticeship standards; *provided*, that none of the terms or provisions of this act shall apply to any person or craft unless, until and only so long as such person or craft voluntarily elects that the terms and provisions of this act shall apply. *Provided*, further, no person whether presently employed or seeking employment shall, in any manner, be forced or coerced into entering into any ap-

COMMENT: The substance of Section 23-70, providing for the certificate, has been combined with this section. The form has been re-designed so as to include social security or identification number and to delete the date of birth. The date of birth and occupation will appear on the poll roster but not on the certificate. This will enable the poll manager to question an unknown voter as to his date of birth or his occupation (at the time application was made). The "Precinct"

instead of "voting place" is provided for. The Deputy Secretary of State for Elections has been authorized to prescribe the form of the certificate.

SECTION 8. Section 23-73 amended—appeals when registration denied.—Section 23-73 of the 1962 Code is amended to read as follows:

"Section 23-73. The boards of registration to be appointed under Section 23-51 shall be the judges of the legal qualifications of all applicants for registration. Any person denied registration or restoration of his name on the registration books shall have the right of appeal from the decision of the board of registration denying him registration or such restoration to the court of common pleas of the county or any judge thereof and thence to the Supreme Court."

COMMENT: This section has been amended so as to include appeals for denying the restoration of an elector's name to the registration books which has been deleted therefrom.

SECTION 9. Section 23-74 amended—procedures for appeals.—Section 23-74 of the 1962 Code is amended to read as follows:

"Section 23-74. Any person denied registration or restoration of his name on the registration books and desiring to appeal must within ten days after written notice to him of the decision of the board of registration file with the board a written notice of his intention to appeal therefrom. Within ten days after the filing of such notice of intention to appeal, the board of registration shall file with the clerk of court of common pleas for the county the notice of intention to appeal and any papers in its possession relating to the case, together with a report of the case if it deem proper. The clerk of the court shall file the same and enter the case on a special docket to be known as calendar number four. If the applicant desires the appeal to be heard by a judge at chambers he shall give every member of the board of registration four days' written notice of the time and place of the hearing. On such appeal the hearing shall be de novo."

COMMENT: This section has been amended so as to include the right of appeal from a decision of the board of registration when the board refuses to order the restoration of an elector's name which has been deleted from the registration books.

SECTION 10. Section 23-92 amended—further provide for conviction reports.—Section 23-92 of the 1962 Code is amended to read as follows:

“Section 23-92. The clerks of the courts of common pleas and general sessions and every magistrate in the State shall, annually on or before June first, make out under their respective hands and seals and report to the Deputy Secretary of State for Elections a complete list as shown by the records of their respective offices for the preceding calendar year of all persons convicted in such year of the following offenses: burglary, arson, obtaining goods or money under false pretenses, perjury, forgery, robbery, bribery, adultery, bigamy, wife-beating, housebreaking, receiving stolen goods, breach of trust with fraudulent intent, fornication, sodomy, incest, assault with intent to ravish, miscegenation, larceny, murder, rape and crimes against the election laws, together with the social security or identification numbers of such persons. COMMENT: This section has been amended to include the crimes of murder and rape and the social security or identification number of persons being reported on. There is a minor change in making reference to the records. This section is also amended to have the report made to the Deputy Secretary of State for Elections instead of to the respective registration boards.

SECTION 11. Section 23-100 amended—provide for obtaining corrected registration certificates and require member of board to be present all hours polls are open.—Section 23-100 of the 1962 Code is amended to read as follows:

“Section 23-100. No elector shall vote in any polling precinct unless his name appears on the official list of voters for the precinct, but if the name of any registered elector does not appear or incorrectly appears on the official list of voters of his precinct he shall, nevertheless, be entitled to vote upon the production and presentation to the managers of election of such precinct, in addition to his registration certificate, or a certificate of a member of the registration board of his county that his name is registered and on file in the office of the registration board of his county or a certificate of the Deputy Secretary of State for Elections that his name is enrolled in the records of his county on file in the office of the Deputy Secretary of State for Elections.

At least one member of the county registration board shall be present in the registration board's office at all hours during which

the polls are open on every election day for the purpose of carrying out the provisions of this section.”

COMMENT: This section has been amended so as to provide that the elector whose name does not appear or incorrectly appears on the official list of voters of his precinct shall get a certificate from his registration board or from the Deputy Secretary of State for Elections instead of the clerk of court or the Secretary of State and to require that a member of the county registration board be in the registration office at all hours during which the polls are open on every election day.

SECTION 12. Section 23-101 amended to require registration officers or Deputy Secretary of State to furnish certificates.—Section 23-101 of the 1962 Code is amended to read as follows:

“Section 23-101. The member of the registration board or the Deputy Secretary of State for Elections shall furnish such certificate without cost or charge upon demand of any such elector whose name is registered and on file in the registration office of his county or in the office of the Deputy Secretary of State for Elections.”

COMMENT: This section has been amended so as to require registration offices or the Deputy Secretary of State for Elections to furnish the certificate provided for in Section 23-100 instead of the clerk of court or the Secretary of State.

SECTION 13. Section 23-211 amended—voter to vote in precinct where he is a resident.—Section 23-211 of the 1962 Code is amended to read as follows:

“Section 23-211. Subject to the provisions of Section 23-211.1, every registered elector shall be registered and, unless otherwise specified on his voting certificate, shall vote at the nearest voting place within the precinct of his residence, but in incorporated towns in which officers are elected by wards or other municipal subdivisions electors shall be registered and shall vote at the voting places nearest to their residences within the ward or other subdivision of their residences.”

SECTION 15. Sections relating to voter registration repealed.—Sections 23-70, 23-91, 23-93, 23-94, 23-95, 23-96 and 23-104 of the 1962 Code are repealed.

SECTION 16. Special registration procedures from September 1, 1967 through September 30, 1968.—Notwithstanding any other provision of law to the contrary the following procedures may be used in the registration of electors for the period commencing September 1, 1967 through September 30, 1968, in the alternative to the procedure otherwise provided by law.

(1) The county boards of registration are authorized to mail certificates to those making application without the necessity of having the elector sign the certificate in the presence of a member of the board, a deputy member or a registration clerk and the attestation of the elector's signature shall not be required provided the conditions hereinafter set forth are met.

(2) An elector possessing a valid certificate issued prior to September 1, 1967, may acquire a new certificate by mailing or having delivered a completed application in duplicate, together with such valid certificate to his registration board. Such application shall be sworn and subscribed to before a notary public of this State. Notaries public of this State are authorized to execute the oath made in conjunction with such an application.

(3) The Secretary of State shall furnish a sufficient number of applications to the county registration boards so that distribution thereof may be made to various locations throughout the counties.

(4) County boards of registration shall distribute application forms to various locations of their respective counties where they will be readily available to the electors during the subject period.

(5) Any person who does not hold such a valid certificate may secure an application and complete it in duplicate prior to appearing before registration officials. The oath of such an applicant shall be administered by a qualified registration official only. If the applicant has signed the application prior to such appearance he shall be required to acknowledge his signature at the time of taking the oath.

(6) Any person holding a valid certificate or whose name is enrolled on the registration books prior to September 1, 1967 shall not be required to prove qualifications, except as to residence, as a condition to having a new certificate issued.

Such funds shall be expended only upon the approval of the Budget and Control Board.

SECTION 72. The expenditure of money appropriated in this Act shall be by warrant requisitions directed to the Comptroller General. Upon receipt of the requisition, accompanied by invoices or other satisfactory evidence of the propriety of the payment, and itemized according to standard budget classifications, the Comptroller General shall issue his warrant on the State Treasurer to the payee designated in the requisition. *Provided, However,* That upon approval and designation by the State Budget and Control Board, state institutions may requisition funds in favor of their own treasurer, itemized only to the extent of the purpose of the appropriation as expressed in this Act, and may deposit such funds in the name of the institution, and disburse same by check to meet the purposes of the appropriation, but strict account shall be kept of all such expenditures according to standard budget classifications.

SECTION 73. Upon the approval and designation of the State Budget and Control Board, state institutions may, at the beginning of the

fiscal year, requisition from their respective appropriations, a sum of money, the amount of same to be approved by the State Budget and Control Board, to be used throughout the year as a revolving fund for the handling of payrolls and other necessary operating expenses, all payments from such revolving funds to be reimbursed to them by regular requisitions on the Comptroller General.

Provided, Further, That at all state institutions where institutional revenue is available for operation, such revenue shall, as far as practicable, be used before appropriations from the State's General Fund are requisitioned; and no funds shall be requisitioned from such appropriation except to meet actual operating obligations of the year for which such appropriations are provided.

SECTION 74. During the fiscal year 1967-68, student fees at the State institutions of higher learning shall be fixed by the respective Boards of Trustees as follows:

(1) Fees applicable to academic and general maintenance and operation costs shall be maintained at rates not less than those prevailing in the year 1966-67.

(2) Fees applicable to dormitory rental, dining halls, laundry, infirmary and all other personal subsistence expenses shall be sufficient to fully cover the cost of providing such facilities and services.

(3) Student Activity Fees may be fixed at such rates as the respective Boards shall deem reasonable and necessary.

Provided, That the respective Boards of Trustees are authorized to adopt policies for the abatement of any part or all of non-resident fees for out-of-state students who are recipients of scholarship aid.

SECTION 75. The University of South Carolina, The Citadel, Clemson University, Winthrop College, S. C. State College, the South Carolina Medical College (including the Medical College Hospital), and the South Carolina Opportunity School shall remit all revenues and income, collected at the respective institutions, to the State Treasurer according to the terms of Section 1 of this Act, but all such revenues or income so collected, except fees received as regular term tuition, matriculation, and registration, shall be carried in a special continuing account by the State Treasurer, to the credit of the respective institutions, and may be requisitioned by said institutions, in the manner prescribed in Section 72 of this Act, and expended to fulfill the purpose for which such fees or income were levied, but no part of such income shall be used for permanent improvements without the express written approval of the State Budget and Control

Board; and it is further required that no such fee or income shall be charged in an amount in excess of what is necessary to supply the service, or fulfill the purpose for which such fee or income was charged. *Provided, Further,* That money derived wholly from athletic or other student contests, and any other funds derived wholly from the activities of student organizations, including income from the operation of canteens (at all State institutions) and book stores, shall not be considered as State funds, and may be retained at the institutions. *Provided, Further,* That the University of South Carolina may operate its Law School in the summer of 1967, both summer school and summer term, as it may be advised, and retain all additional tuition and other fees charged the law students therefor to aid it in such operation.

SECTION 76. All departments, institutions, and agencies of the State are hereby required and directed to budget and allocate the appropriation herein made to them, so as to provide for operation on uniform standards throughout the fiscal year 1967-68, and in order to avoid a deficiency in such appropriations, and upon request of the Budget and Control Board to submit to the Board its budget or plan of operation for the year, and the said Board is authorized to restrict the rate of expenditures of such agency if it appears that an unjustifiable deficit is likely to occur. *Provided, Further,* That the bonds of State officials violating the terms of this section shall be held liable thereof, unless the State Budget and Control Board has been advised of, and officially recognizes, the necessity for such deficit.

SECTION 77. Each department, institution, or other agency of the State is authorized to accept and receive such Federal Aid or grants as are or may be made available by the Federal Government for use in carrying out the purposes and functions of the department, institution or agency, but such funds when and as received, shall be deposited in the state treasury, if not in conflict with Federal regulations, and withdrawn therefrom as needed, in the same manner as that provided for the disbursement of state funds. If it shall be determined that federal funds are not available for, or cannot be appropriately used in connection with, all or any part of any activity or program for which state funds are appropriated in this Act on a matching basis, the appropriated funds may nevertheless be expended for the activities or programs for which appropriated without regard to any matching arrangement. *Provided, Further,* That donations or contributions from sources other than the Federal Government, for use by

any state agency, shall be deposited in the state treasury, but in special accounts, and shall be withdrawn from the treasury as needed to fulfill the purposes and conditions of the said donations, or contributions, if specified, and, if not specified, as may be directed by the proper authorities of the department or institution.

SECTION 78. Except as otherwise provided in this Act, every appropriation under the classification of A-1 Salaries for a designated position shall be paid in monthly or bi-weekly installments to the person holding such position, but where a group appropriation is made for Personal Service, such appropriation shall be expended as may be determined by the officer in charge of such appropriation. *Provided, Further,* That the appropriated salaries for specified positions shall mean the maximum compensation for such position, and in any case where the head of any department can secure the services for a particular position or work at a lower rate than the salary specified in this Act, authority for so doing is hereby given.

Provided, Further, That no full-time employee of any State department or institution shall be paid any compensation or travel from any other department of the State Government except with the approval of the State Budget and Control Board.

SECTION 79. That salaries paid to officers and employees of the State, including its several boards, commissions, and institutions shall be in full for all services rendered, and no perquisites of office or of employment shall be allowed in addition thereto, but such perquisites, commodities, services or other benefits shall be charged for at the prevailing local value and without the purpose or effect of increasing the compensation of said officer or employee; *Provided, However,* That this shall not apply to the Governor's Mansion, nor to guards at any of the State's penal institutions and nurses and attendants at the Department of Mental Health, Retarded Children's Habilitation Center, Whitten Village, and the S. C. Sanatorium, when the cash compensation of such employees is \$4,500.00 or less per year. *Provided, Further,* That the Presidents of the State's institutions of higher learning may be permitted to occupy a residence on the grounds of such institutions without charge. *Provided, Further,* That the Farm Director, Farm Managers and specialists employed at State Farms Nos. 1 and 3 may be permitted to occupy residences situated on such farms without charge.

Provided, Further, That all salaries paid by State institutions and departments for which a lump sum appropriation is made, and from

all departmental appropriations for groups of employees, shall be submitted to and approved by the State Budget and Control Board before becoming effective; and in submitting said salaries for approval of the said Board, the total salary paid to each officer and employee, included in such lump sum or group appropriations, shall be shown; and in any institution or department where one or more salaries are supplemented, the amount of such supplement shall be reported to the said Board for approval, and the source of such supplement.

SECTION 80. Provided, that the authorities of all institutions and departments for which a lump sum operating appropriation is provided, shall, if requested, before the beginning of the fiscal year to which such appropriations are applicable, submit to the State Budget and Control Board for approval an itemized budget for the operation of such department or institution during the ensuing fiscal year, and shall further report upon the Board's request, any subsequent changes in such approved budget so as to reflect the actual detailed operating costs of such department or institution.

Provided, Further, That no part of such lump sum appropriations shall be used for permanent improvements unless specifically authorized herein.

That all employees of the State of South Carolina or any agency thereof while traveling on the business of the State shall be allowed for subsistence expenses amounts not to exceed \$12.50 per day while traveling in the State and \$16.00 per day while traveling outside the State, except that the Governor, Lieutenant Governor, Secretary of State, Comptroller General, Attorney General, State Treasurer, Adjutant General, Superintendent of Education and the Commissioner of Agriculture shall be reimbursed actual expenses.

Whenever Agents, Auditors, Investigators, or other such employees of the State, are required in the performance of their regular audit or investigation duties to travel to cities of two hundred fifty (250,000) thousand, or greater, population, such employees shall be allowed for subsistence expense an amount not to exceed \$18.50 per day.

No expense shall be allowed an employee either at his place of residence or at the official headquarters of the agency by which he is employed, except that the members of the Public Service Commission may be reimbursed at the regular mileage rate for one round trip each week from their respective homes to Columbia and may receive

the regular subsistence allowance of other State employees for not exceeding three days in any week while in Columbia on official business.

When an employee is assigned to work a particular territory or district, and such territory or district and his official headquarters are in different localities, or sections of the State, expenses may be allowed for necessary travel to his official headquarters.

One member of the Supreme Court while attending the Conference of Chief Justices and one member of the Supreme Court while attending the National Convention of Appellate Court Judges shall be allowed actual subsistence and travel expenses, and two Circuit Judges while attending the National Convention of State Trial Judges.

When an employee of the State shall use his or her personal automobile in traveling on necessary official business, a charge of 9 cents per mile will be allowed for the use of such automobile, and the employee shall bear the expense of supplies and upkeep thereof. When such travel is by a state-owned automobile, the State shall bear the expense of supplies and upkeep thereof, but no mileage will be allowed. *Provided*, That in traveling on the business of the State, employees are required to use the most economical mode of transportation, due consideration being given to urgency, schedules, and like factors.

No State-owned automobile shall be acquired by any agency of the State without prior approval of the State Budget and Control Board.

The State Budget and Control Board is authorized to promulgate and publish regulations governing the application of the above-provided rates of travel of State employees.

SECTION 82. That the Legislative members of State boards and commissions shall serve in their respective capacities as members of

said boards and commissions until their successors shall have been elected or appointed, and qualified.

SECTION 83. That the per diem allowance of all boards, commissions and committees shall be at the rate of Ten (\$10.00) Dollars per day. *Provided*, That no full-time officer or employee of the State shall draw any per diem allowance for service on such boards, commissions or committees.

SECTION 85. Foreign citizens, friendly to the United States, who are beneficiaries of scholarships to any of the State's institutions of higher learning, which scholarships are provided for by the student body of such institution, or donation from private citizens of South Carolina, shall be allowed to pay tuition at the same rate as residents of the State.

As to the winner of the American Legion High School Oratorical Contest and the Governor of Boys' State, the abatement shall be granted only when the American Legion, Department of South Carolina, shall have contributed a like amount per year. The abatement of tuition herein provided is for the purpose of furnishing a scholarship of One Hundred (\$100.00) Dollars per year to the winners of the above contests, the State of South Carolina and the American Legion, Department of South Carolina, co-operating on an equal basis in providing these scholarships.

SECTION 87. In addition to the powers and duties devolved upon the Budget and Control Board by the 1962 Code of Laws of this
